Department of Mines, Industry Regulation and Safety

# Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (including maps etc.). We will return / decline any forms that are not correctly completed.

☐ Referral of proposed clearing (section 51DA of the EP Act)

□ Application for an area permit (section 51E of the EP Act)

☐ Application for a purpose permit (section 51E of the EP Act)

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

# Part 1 – Form type

Select your form type.

form, and unless stated

respectively.

and 'applicant' also mean 'referral' and 'referrer'

NOTE: Where appropriate in this

otherwise, the terms 'application'

Part 2 – Applicant details					
2.1 Applicant name					
For area permits:	□ Applying as an individual – complete the following:				
If granted, the name(s) of (all)	Title	⊠ Mr □ Mrs □ Ms	□ Other:		
landowner(s) will be listed as	Name(s)				
'permit holders' on the permit.		a body corporate or othe	er entity formed at law – complete the		
For purpose permits:	Name	Shire of Toodyay			
If granted, the name(s) of (all)  Australian Company Num		npany Number (ACN)	97352024603		
applicant(s) will go on the permit.	, ,	a government entity (e.g hority, or other statutory	. government department, local body)		
Name Shire of Toodyay					

# 2.2 Applicant contact details

Provide the contact details for the above (primary contact).

Title	
First name	
Last name	
Position	
Company name	
Contact phone number (1)	
Email address	

## 2.2 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

Address line 1		
Address line 2		
Suburb		
State		

## 2.3 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

Address line 1	
Address line 2	
Suburb	
State	
Contact phone number (1)	

## 2.4 Electronic correspondence consent

Both the Department of Water and Environmental Regulation (DWER) and Department of Mines, Industry Regulation and Safety (DMIRS) prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

I consent that all written correspondence between myself (the applicant) and DWER/DMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.			⊠ Yes	□ No	
2.5 Contact details for enquiries If different from the applicant's conta DWER or DMIRS should liaise with (	ct details, enter the con	tact deta	ils of a person	with whor	n
Same as applicant's contact details	Same as applicant's contact details   □ Yes □				□ No
If 'No' – complete the following:					
Contact name					
Position (if applicable)					
Company name (if applicable)					
Contact phone number (1)		Phone i	number (2)		
Business or postal address line 1					
Business or postal address line 2					
Suburb					
State			Postcode		
Email address			1		

# Part 3 - Land details

- You must accurately describe the location of the land where your clearing is proposed.
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

## 3.1 Property details

I have a large number of properties and have given the relevant details in an attached supporting document.	☐ Yes – skip to Part 4   ⊠ No
---	-------------------------------

If 'No' – complete the following:

Land description			
Provide the following details, as applicable, for all properties:	Land ID number (Landgate) 3153063		
<ul> <li>volume and folio number</li> <li>lot or location number(s)</li> <li>crown lease or reserve number</li> <li>pastoral lease number</li> <li>mining tenement number</li> </ul>			
Street address – Line 1			
Street address – Line 2			
Suburb	Julimar		
State	WA	Postcode	6566
Local government area(s)	Toodyay LGA		
Land zoning	Rural		

# Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

## **Proof of ownership** may include:

- a certificate of title (that is less than 6 months old)
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following	
☐ I am the landowner	☐ Attach proof of ownership	
☐ I am lodging a form on behalf of the landowner (e.g. a consultant)	☐ Attach proof of ownership	
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach proof of ownership ☐ Complete and attach an 'Acting on behalf and jointly responsible' letter	
☐ I am likely to become the landowner	☐ Attach the Certificate of Title ☐ Attach evidence of the pending transfer of ownership and/or contract of sale ('offer and acceptance')	
☐ I will undertake the clearing activities with the landowner's authority and will be the permit holder	<ul> <li>□ Attach proof of ownership</li> <li>□ Complete and attach an 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)</li> </ul>	
☐ A person with multiple land parcels	<ul> <li>□ Attach proof of ownership</li> <li>□ Complete and attach 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)</li> </ul>	

## Part 5 - Proposed clearing

#### 5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: We will decline / return forms (as applicable) if you do not provide sufficient information for this question.

☑ An ESRI shapefile with the following properties (preferred)

- Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 1994/2020 (geographic latitude / longitude)
- Datum: GDA 1994 / GDA 2020 (please specify which was provided)

⊠ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

#### Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

#### 5.2 Size

- If you propose to clear a patch(s) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero).
- If you propose to remove only individual trees from the area(s) (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees (and mark total area as estimated hectares).
  - Note: If any shrubs, grasses, and/or groundcover plants MAY be damaged in the clearing process, add this to the total area.
- If you propose to clear an area of vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10 hectare footprint. This option is only available for <u>purpose permit</u> applications.
- Enter values for BOTH number of trees and the size of the area if you are clearing individual trees in one area AND a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare =  $10,000 \text{ m}^2$  Area of circle =  $3.14 \text{ x radius}^2$ 1 acre =  $0.4 \text{ hectares} / 4,000 \text{ m}^2$  Area of a rectangle = length x width 1 tree =  $0.01 \text{ hectares} / 100 \text{ m}^2$  Area of a triangle =  $\frac{1}{2} \text{ length x perpendicular height}$ 

Total area of clearing proposed (hectares)	0.87 ha DWER revised to 0.8 ha
Footprint of clearing (hectares) (purpose permit only)	
Number of individual trees to be removed	14

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

#### 5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.)	For the purpose of widening and sealing the existing roads for safety improvements.
Specify what the final land use will be after clearing	Public Road

#### 5.4 Method

Proposed method of clearing	Mechanical	
(i.e. burning, cutting, draining, flooding, grazing,		
mechanical clearing/bulldozing or other – specify)		

#### 5.5 Timeframe

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)	Start date: October '22
(e.g. 1/1/2022 to 30/6/2024)	End date: February '23

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

### 5.6 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider?
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, we will ask you to do so during the validation of this form.

Provide the avoidance and mitigation details	The section of road is deemed to be of poor standard with high potential for traffic accidents and fatalities. Consequently, it has attracted Black Spot funding. The road has been designated at 100 km per hour speed limit which exacerbates the danger. The Julimar Road is subject to increasing volumes of large vehicles including heavy haulage and caravan tourist traffic. It is also popular with motorbike enthusiast who often travel the road a high speed. (a serious motorbike accident has occurred here).
	The proposed roadworks were extensively surveyed by the Shire Engineering Technical Officer and the Shire Reserves Management Officer. A Toodyay Naturalists' Inc. member was invited to inspect the proposed roadworks/clearing

area and did so. Significant trees were identified and all design measures to

achieve avoidance and mitigation were included into the design phase of the road works. Installation of crash barriers to has not been incorporated into the design. To achieve the necessary road width and shoulder treatments no alternative but to remove certain trees was identified. A section of the proposed road works length runs parallel to Reserve Number 5273. Known as the Dawn Atwell Nature Reserve it is a Shire managed reserve of high community value. The Toodyay Naturalists' Club Inc. successfully campaigned for a purpose change to "Conservation". This status of the reserve is recognized and further incentive to minimize clearing impacts.

## Part 6 - Offset

Do you want to submit a clearing offset proposal with your form?	⊠ Yes □ No
If 'Yes' – please complete and attach Appendix A of the <u>Clearing of native vegetation offsets procedure</u> guideline as a supporting document for your form.	

## Part 7 – Surveys for assessments (IBSA and IMSA)

#### 7.1 Biodiversity surveys

If you want to submit any biodiversity surveys to support this form, you must follow the Environmental Protection Authority's (EPA) <u>Instructions for the preparation of data packages for the Index of Biodiversity Surveys for Assessments</u> (IBSA). If you do not meet the IBSA requirements, DWER/DMIRS (as applicable) may decline/return your form.

Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER/DMIRS (as applicable). Please note DWER / DMIRS will suspend the assessment timeframes for your form until you provide the IBSA number(s).

Have you submitted all the biodiversity surveys that support this form to the Index of Biodiversity Surveys for Assessment, available at <a href="mailto:ibsasubmissions.dwer.wa.gov.au">ibsasubmissions.dwer.wa.gov.au</a> ?	<ul><li>☐ Yes</li><li>☒ Not applicable</li></ul>	
Provide an IBSA number (preferred) or a submission number(s)		

#### 7.2 Marine surveys

If you want to submit any marine surveys to support this form, you must follow the EPA's <u>Instructions for the preparation of data packages for the Index of Marine Surveys for</u>

<u>Assessments</u>	(IMSA).	If you do	not meet	the IMSA	A requirements,	, DWER	may de	ecline/return	your
form.									

Have you prepared all the marine surveys that support this form in accordance with the EPA's <i>Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments?</i>
