

## Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (including maps etc.). We will return / decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the [Procedure: Native vegetation clearing permits](#).

### Part 1 – Form type

<p>Select your <a href="#">form type</a>.</p> <p>NOTE: Where appropriate in this form, and unless stated otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer' respectively.</p>	<p><input type="checkbox"/> Referral of proposed clearing (section 51DA of the EP Act)</p> <p><input type="checkbox"/> Application for an area permit (section 51E of the EP Act)</p> <p><input checked="" type="checkbox"/> Application for a purpose permit (section 51E of the EP Act)</p>
---	---

### Part 2 – Applicant details

#### 2.1 Applicant name

<p><b>For area permits:</b> If granted, the name(s) of (all) landowner(s) will be listed as 'permit holders' on the permit.</p> <p><b>For purpose permits:</b> If granted, the name(s) of (all) applicant(s) will go on the permit.</p>	<input type="checkbox"/> Applying as an individual – complete the following:	
	Title	<input type="checkbox"/> Mr <input type="checkbox"/> Mrs <input type="checkbox"/> Ms <input type="checkbox"/> Other:
	Name(s)	
	<input checked="" type="checkbox"/> Applying as a body corporate or other entity formed at law – complete the following:	
	Name	Opis Resources Limited
	Australian Company Number (ACN)	610710462
<input type="checkbox"/> Applying as a government entity (e.g. government department, local government authority, or other statutory body)		
Name		

## 2.2 Applicant contact details

Provide the contact details for the above (primary contact).

--

## 2.2 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

--

## 2.3 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

--

## 2.4 Electronic correspondence consent

Both the Department of Water and Environmental Regulation (DWER) and Department of Mines, Industry Regulation and Safety (DMIRS) prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

I consent that all written correspondence between myself (the applicant) and DWER/DMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
---	---

## 2.5 Contact details for enquiries

If different from the applicant's contact details, enter the contact details of a person with whom DWER or DMIRS should liaise with (e.g. a consultant).

Same as applicant's contact details	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
-------------------------------------	---

If 'No' – complete the following:

### Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

#### 3.1 Property details

I have a large number of properties and have given the relevant details in an attached supporting document.	<input type="checkbox"/> Yes – skip to Part 4 <input checked="" type="checkbox"/> No
---	--

If 'No' – complete the following:

<u>Land description</u> Provide the following details, as applicable, for all properties: – volume and folio number – lot or location number(s) – crown lease or reserve number – pastoral lease number – mining tenement number	E 69/3424 & E 69/3425		
Street address – Line 1			
Street address – Line 2			
Suburb			
State	WA	Postcode	
Local government area(s)	Shire of Ngaanyatjarraku		
Land zoning	Aboriginal Crown Reserve 17614		

## Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

Proof of ownership may include:

- a certificate of title (that is less than 6 months old)
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

<b>Relationship to landowner</b> <i>(select one of the following options)</i>	<b>Complete the following</b>
<input checked="" type="checkbox"/> I am the landowner	<input checked="" type="checkbox"/> Attach <a href="#">proof of ownership</a>
<input type="checkbox"/> I am lodging a form on behalf of the landowner (e.g. a consultant)	<input type="checkbox"/> Attach <a href="#">proof of ownership</a>
<input type="checkbox"/> I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	<input type="checkbox"/> Attach <a href="#">proof of ownership</a> <input type="checkbox"/> Complete and attach an ' <a href="#">Acting on behalf and jointly responsible</a> ' letter
<input type="checkbox"/> I am likely to become the landowner	<input type="checkbox"/> Attach the Certificate of Title <input type="checkbox"/> Attach evidence of the pending transfer of ownership and/or contract of sale ('offer and acceptance')
<input type="checkbox"/> I will undertake the clearing activities with the landowner's authority and will be the permit holder	<input type="checkbox"/> Attach <a href="#">proof of ownership</a> <input type="checkbox"/> Complete and attach an ' <a href="#">Authority to access and clear native vegetation</a> ' letter (if the applicant is not the landowner)
<input type="checkbox"/> A person with multiple land parcels	<input type="checkbox"/> Attach <a href="#">proof of ownership</a> <input type="checkbox"/> Complete and attach ' <a href="#">Authority to access and clear native vegetation</a> ' letter (if the applicant is not the landowner)

## Part 5 – Proposed clearing

### 5.1 Maps and/or spatial data

<p>Select which map type(s) you will attach with your form.</p> <p>Note: We will decline / return forms (as applicable) if you do not provide sufficient information for this question.</p>	<p><input checked="" type="checkbox"/> An ESRI shapefile with the following properties (<i>preferred</i>)</p> <ul style="list-style-type: none"> <li>• Geometry type: polygon shape</li> <li>• Coordinate system: Geocentric Datum of Australia (GDA) 1994/2020 (geographic latitude / longitude)</li> <li>• Datum: GDA 1994 / GDA 2020 (please specify which was provided)</li> </ul> <p><input checked="" type="checkbox"/> An aerial photograph or map with a north arrow, clearly marking the proposed clearing area</p> <p>Note:</p> <ul style="list-style-type: none"> <li>• An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj</li> <li>• You must provide an ESRI shapefile if the form requires an assessment under an <i>Environment Protection and Biodiversity Conservation Act 1999 (Cth)</i> (EPBC Act) accredited process. See Part 8 of this form for more information.</li> </ul>
---	--

### 5.2 Size

- If you propose to clear a patch(s) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero).
- If you propose to remove only individual trees from the area(s) (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees (and mark total area as estimated hectares).  
Note: If any shrubs, grasses, and/or groundcover plants MAY be damaged in the clearing process, add this to the total area.
- If you propose to clear an area of vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10 hectare footprint. This option is only available for [purpose permit](#) applications.
- Enter values for BOTH number of trees and the size of the area if you are clearing individual trees in one area AND a patch of vegetation in a different area.
- Please note the following area conversions/calculations:
 

1 hectare = 10,000 m <sup>2</sup>	Area of circle = 3.14 x radius <sup>2</sup>
1 acre = 0.4 hectares / 4,000 m <sup>2</sup>	Area of a rectangle = length x width
1 tree = 0.01 hectares / 100 m <sup>2</sup>	Area of a triangle = ½ length x perpendicular height

Total area of clearing proposed (hectares)	<b>50</b>
Footprint of clearing (hectares) (purpose permit only)	<b>60500</b>
Number of individual trees to be removed	<b>0</b>

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

### 5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.)	To enable access to and from the project for exploration purposes. To enable exploration equipment such as drill rigs to access the project area and perform drilling activities.
Specify what the final land use will be after clearing	Drilling activities will be completed on the cleared land, along with vehicles transiting access tracks to reach work areas.

### 5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)	Qualified operator to use Front end Loader / Dozer / excavator to carry out mechanical clearing with a raised blade. Topsoil/vegetation will be stockpiled.
---	---

### 5.5 Timeframe

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)	Start date: 1/9/2022 End date: 1/9/2023
---	--

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

### 5.6 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing – e.g. engineering solutions – did you consider?
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, we will ask you to do so during the validation of this form.

Provide the avoidance and mitigation details	The location of the proposed clearing activity is encompassed by mineral exploration tenure held by Opis Resources. Multiple stages of non-ground disturbing activities such as airborne geophysical surveys and soil sampling have been previously completed. The results of this work provide a vector towards which areas warrant more attention. As the results of this work are continually evaluated and new areas identified, it is important that this application provides the ability for work to be completed in areas of future
--	---

	<p>interest.</p> <p>It is noted that heritage exclusion zones have been excluded from the proposed clearing area. As per existing heritage agreements, mineral exploration activities are not permitted within these areas and are thus excluded from application for clearing activities.</p> <p>Exploration activities within the proposed area of clearing are in their early stages and thus the location of drilling activities is relatively flexible. As a commitment to reduce any impact on the environment from the exploration drilling activities, drill pads and tracks will be positioned so that the disturbances to vegetation, fauna and landforms will be minimised. Wherever practicable, drill pads will be moved to avoid the need for clearing substantial stands of trees and large shrubs. Within the spinifex and Wanderie grassland, it is generally sufficient to remove the fire hardened stakes to prevent punctures leaving the bulk of the root stock intact and encouraging regrowth. Drill tracks will go around existing trees and shrubs wherever possible to minimise clearing. Photos will be taken prior to clearing activities and post rehabilitation, which will be completed within 6 months of drilling.</p> <p>In case of the diamond drilling, drill sumps that are dug to hold water for the drilling will be lined with plastic to keep the water and drilling muds within the sump and to prevent leakage into the surrounding environment. A 30cm freeboard within the sumps will be maintained at all times. The sumps will be constructed with one shallow sloping wall to prevent fauna from becoming trapped.</p> <p>As part of the rehabilitation all introduced materials will be removed (e.g. rubbish, sample bags, PVC casing, etc.) from the drill sites, the sumps will be filled-in and the drill pad covered in top soil (if removed) and scarified to allow regrowth. All hydrocarbon spills will be dug up and removed and carried back to a licensed facility for proper disposal. Drill tracks will be rehabilitated in the same way.</p> <p>Further details of avoidance and mitigation are outlined in Section 4 (Clearing Principles) of the cover letter attached to this submission.</p>
--	---

## Part 6 – Offset

Do you want to submit a clearing offset proposal with your form?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If 'Yes' – please complete and attach Appendix A of the <a href="#"><i>Clearing of native vegetation offsets procedure</i></a> guideline as a supporting document for your form.	<input type="checkbox"/> Appendix A attached

## Part 7 – Surveys for assessments (IBSA and IMSA)

Do you want to submit marine or biodiversity surveys in support of your form?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No – skip to Part 8
---	--

### 7.1 Biodiversity surveys

If you want to submit any biodiversity surveys to support this form, you must follow the Environmental Protection Authority's (EPA) [\*Instructions for the preparation of data packages for the Index of Biodiversity Surveys for Assessments\*](#) (IBSA). If you do not meet the IBSA requirements, DWER/DMIRS (as applicable) may decline/return your form.

Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER/DMIRS (as applicable). Please note DWER / DMIRS will suspend the assessment timeframes for your form until you provide the IBSA number(s).

Have you submitted all the biodiversity surveys that support this form to the Index of Biodiversity Surveys for Assessment, available at <a href="https://ibsasubmissions.dwer.wa.gov.au">ibsasubmissions.dwer.wa.gov.au</a> ?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> Not applicable
Provide an IBSA number (preferred) or a submission number(s)	

### 7.2 Marine surveys

If you want to submit any marine surveys to support this form, you must follow the EPA's [\*Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments\*](#) (IMSA). If you do not meet the IMSA requirements, DWER may decline/return your form.

Have you prepared all the marine surveys that support this form in accordance with the EPA's <i>Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments</i> ?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> Not applicable
