Department of Mines, Industry Regulation and Safety

# Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (including maps etc.). We will return / decline any forms that are not correctly completed.

☐ Referral of proposed clearing (section 51DA of the EP Act)

□ Application for an area permit (section 51E of the EP Act)

☐ Application for a purpose permit (section 51E of the EP Act)

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

# Part 1 – Form type

Select your form type.

form, and unless stated

and 'applicant' also mean

NOTE: Where appropriate in this

otherwise, the terms 'application'

'referral' and 'referrer' respectively.		NOTE: The form type has been changed to an application for a purpose permit to reflect legal requirements (section 51E of the EP Act)	
Part 2 – Appli	cant details		
2.1 Applicant n	ame		
For area	☐ Applying as a	n individual – complete the following:	
permits:  If granted, the name(s) of (all) landowner(s) will be listed as	Title	☐ Mr ☐ Mrs ☐ Ms ☐ Other:	
	Name(s)		
'permit holders' on the permit.	☐ Applying as a body corporate or other entity formed at law – complete the following:		
For purpose permits:	Name		
If granted, the name(s) of (all) applicant(s)	Australian Com	pany Number (ACN)	

will go on the permit.	⋈ Applying as a government entity (e.g. government department, local government authority, or other statutory body)	
	Name	Department of Communities, Western Australia acting with authority from the Ngaanyatjarra Council (Aboriginal Corporation) on behalf of the Ngaanyatjarra Land Council (Aboriginal Corporation).

# 2.2 Applicant contact details

Provide the contact details for the above (primary contact).

Title	
First name	
Last name	
Position	
Company name	
Contact phone number (1)	
Email address	

#### 2.2 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

Address line 1		
Address line 2		
Suburb		
State		

#### 2.3 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

Address line 1	
Address line 2	

Suburb		
State		
Contact phone number (1)		

#### 2.4 Electronic correspondence consent

Both the Department of Water and Environmental Regulation (DWER) and Department of Mines, Industry Regulation and Safety (DMIRS) prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

#### 2.5 Contact details for enquiries

If different from the applicant's contact details, enter the contact details of a person with whom DWER or DMIRS should liaise with (e.g. a consultant).

Same as applicant's contact details   ☑ Yes □ No
--

If 'No' – complete the following:

Contact name	
Position (if applicable)	
Company name (if applicable)	
Contact phone number (1)	
Business or postal address line 1	
Business or postal address line 2	
Suburb	
State	
Email address	

# Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

# 3.1 Property details

I have a large number of properties and have given the relevant details in an attached supporting document.	☐ Yes – skip to Part 4	⊠ No
---	------------------------	------

#### If 'No' – complete the following:

Land description  Provide the following details, as applicable, for all properties:  • volume and folio number  • lot or location number(s)  • crown lease or reserve number  • pastoral lease number  • mining tenement number	<ul> <li>Lot 9 on Deposited Plan 91722 being Reserve 17614 being the land comprised in Certificate of Crown Land Title Volume 3072 Folio 586 Folio revised to 486</li> <li>Registered Crown Lease GE I798552 between the Aboriginal Lands Trust and the Ngaanyatjarra Land Council Aboriginal Corporation</li> <li>Native Title Determination – Ngaanyatjarra Lands (Part A). Native Title Rights and interests held in trust by the Yarnangu Ngaanyatjarraku Parna (Aboriginal Corporation) RNTBC</li> </ul>			
Street address – Line 1	Lot 31			
Street address – Line 2	First Street			
Suburb	Kanpa			
State	WA Postcode 0872			
Local government area(s)	Shire of Ngaanyatjarraku			
Land zoning	N/A – Outside limits of Settlement Layout Plan (SLP) for the Warakurna community.			

# Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

# <u>Proof of ownership</u> may include:

- a certificate of title (that is less than 6 months old)
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following
☐ I am the landowner	☐ Attach <u>proof of ownership</u>
☐ I am lodging a form on behalf of the landowner (e.g. a consultant)	☐ Attach <u>proof of ownership</u>
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach <u>proof of ownership</u> ☐ Complete and attach an ' <u>Acting on behalf and jointly responsible</u> ' letter
☐ I am likely to become the landowner	☐ Attach the Certificate of Title ☐ Attach evidence of the pending transfer of ownership and/or contract of sale ('offer and acceptance')
☑ I will undertake the clearing activities with the landowner's authority and will be the permit holder	<ul> <li>         ⊠ Attach <u>proof of ownership</u> </li> <li>         ⊠ Complete and attach an '<u>Authority to access and clear native vegetation'</u> letter (if the applicant is not the landowner)     </li> </ul>
☐ A person with multiple land parcels	<ul> <li>☐ Attach proof of ownership</li> <li>☐ Complete and attach 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)</li> </ul>

# Part 5 - Proposed clearing

#### 5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: We will decline / return forms (as applicable) if you do not provide sufficient information for this question.

- Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 1994/2020 (geographic latitude / longitude)
- Datum: GDA 1994 / GDA 2020 (please specify which was provided)

CRS: GDA 94 / MGA Zone 52

Datum: GDA 94

An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

#### Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

#### 5.2 Size

- If you propose to clear a patch(s) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero).
- If you propose to remove only individual trees from the area(s) (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees (and mark total area as estimated hectares).
  - Note: If any shrubs, grasses, and/or groundcover plants MAY be damaged in the clearing process, add this to the total area.
- If you propose to clear an area of vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10 hectare footprint. This option is only available for <u>purpose permit</u> applications.
- Enter values for BOTH number of trees and the size of the area if you are clearing individual trees in one area AND a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare =  $10,000 \text{ m}^2$  Area of circle =  $3.14 \text{ x radius}^2$ 1 acre = 0.4 hectares /  $4,000 \text{ m}^2$  Area of a rectangle = length x width 1 tree = 0.01 hectares /  $100 \text{ m}^2$  Area of a triangle =  $\frac{1}{2}$  length x perpendicular height

Total area of clearing proposed (hectares)	<1.3 Hectares.
Footprint of clearing (hectares) (purpose permit only)	4.81 Hectares. Clearing footprint revised to 5.75 hectares

cha wat pole the	lil. Removal of trees would be avoided by hanging the set out alignment of the vater supply bore main and the power oles (should there be any clashes) and ne overhead cable within the 20 metre orridor (footprint).
---------------------------	---

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

# 5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.)	The purpose of the clearing is to clear areas for new water infrastructure for the Warakurna Aboriginal community. The infrastructure to be located on the cleared area includes:		
	<ul> <li>two new water supply bore headworks;</li> </ul>		
	<ul> <li>an underground water pipeline to connect the two new bores to Warakurna's water supply network;</li> </ul>		
	<ul> <li>overhead powerlines to connect the two new bores to Warakurna's power grid;</li> </ul>		
	an access track to the two new bores from existing tracks (not shown on maps as this is within the bore compound clearing areas)		
Specify what the final land use will be after clearing	The land will be used to situate the water supply bores and associated infrastructure.		

# 5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)	The proposed method of clearing will be mechanical clearing.
3 3 1 37	

#### **5.5 Timeframe**

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)	Start date for the Power Service extension clearing works: 28/10/2022	
	End date for the power Service Extension: 17/3/2023	
	Start date for the Bore headworks: 26/9/2022	
	End date for the bore headworks:	

17/3/2023

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

#### 5.6 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider?
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, we will ask you to do so during the validation of this form.

# Provide the avoidance and mitigation details

# Why we selected the location and amount of clearing

The location to be cleared was informed by the following:

- The technical underground water resource studies provided by our expert water consultant;
- Land uses identified under the Settlement Layout Plan (SLP) for the Warakurna Community;
- The advice of our expert water consultant;
- The location of existing water and power infrastructure in Warakurna;
- The Aboriginal cultural heritage and environmental concerns of the relevant native title holders and local Aboriginal inhabitants;
- Cost and technical considerations; and
- The principal of avoiding the clearing of vegetation where feasible.

#### The alternatives to clearing that we considered.

For some of the works (e.g. water pipeline and bore headworks) some clearing is inevitable due to the nature of the works. The particular footprint area has been decided based on Aboriginal cultural heritage values, technical constraints, water resources, location of existing power and water infrastructure, and the SLP land use constraints.

We elected to connect the new water supply bores to Warakurna's power grid via overhead powerlines instead of underground power. This approach reduces the amount of clearing required to connect the new water supply bores to Warakurna's power grid.

# Part 6 – Offset

Do you want to submit a clearing offset proposal with your form?	□ Yes ⊠ No			
If 'Yes' – please complete and attach Appendix A of the <u>Clearing of native vegetation offsets procedure</u> guideline as a supporting document for your form.	☐ Appendi	x A attached		
Part 7 – Surveys for assessments (IBSA and IMSA)				
Do you want to submit marine or biodiversity surveys in support of your form?	□ Yes ⊠ I	No – skip to Part 8		
7.1 Biodiversity surveys  If you want to submit any biodiversity surveys to support this form, you must follow the Environmental Protection Authority				
's (EPA) <u>Instructions for the preparation of data packages for the Index of Biodiversity Surveys</u> <u>for Assessments</u> (IBSA). If you do not meet the IBSA requirements, DWER/DMIRS (as applicable) may decline/return your form.				
Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER/DMIRS (as applicable). Please note DWER / DMIRS will suspend the assessment timeframes for your form until you provide the IBSA number(s).				
Have you submitted all the biodiversity surveys that support this form to the Index of Biodiversity Surveys for Assessment, availant ibsasubmissions.dwer.wa.gov.au?	able	Yes Not applicable		
Provide an IBSA number (preferred) or a submission number(s	)			
7.2 Marine surveys  If you want to submit any marine surveys to support this form, you must follow the EPA's   Instructions for the preparation of data packages for the Index of Marine Surveys for   Assessments (IMSA). If you do not meet the IMSA requirements, DWER may decline/return your form.				
Have you prepared all the marine surveys that support this form in accordance with the EPA's <i>Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments</i> ?		□ Yes ⊠ Not applicable
