Department of Mines, Industry Regulation and Safety

Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (including maps etc.). We will return / decline any forms that are not correctly completed.

☐ Referral of proposed clearing (section 51DA of the EP Act)

☐ Application for an area permit (section 51E of the EP Act)

□ Application for a purpose permit (section 51E of the EP Act)

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

Part 1 – Form type

Select your form type.

form, and unless stated

and 'applicant' also mean 'referral' and 'referrer'

respectively.

NOTE: Where appropriate in this

otherwise, the terms 'application'

| Part 2 – Applicant details | | | | | | |
|---------------------------------------|---|-----------------------|----------------|--|--|--|
| 2.1 Applicant name | | | | | | |
| For area | | | the following: | | | |
| If granted, the name(s) of (all) | Title | ☐ Mr ☐ Mrs ☐ Ms | □ Other: | | | |
| landowner(s) will be listed as | Name(s) | | | | | |
| 'permit holders' on the permit. | □ Applying as a body corporate or other entity formed at law – complete the following: | | | | | |
| For purpose permits: | Name | Proten Western Austra | alia Pty Ltd | | | |
| If granted, the name(s) of (all) | Australian Com | npany Number (ACN) | 642 505 217 | | | |
| applicant(s) will go on the permit. | ☐ Applying as a government entity (e.g. government department, local government authority, or other statutory body) | | | | | |
| | Name | | | | | |

2.2 Applicant contact details

Provide the contact details for the above (primary contact).

| Title | |
|--------------------------|--|
| First name | |
| Last name | |
| Position | |
| Company name | |
| Contact phone number (1) | |
| Email address | |

2.2 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

| Address line 1 | |
|----------------|--|
| Address line 2 | |
| Suburb | |
| State | |

2.3 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

2.4 Electronic correspondence consent

Both the Department of Water and Environmental Regulation (DWER) and Department of Mines, Industry Regulation and Safety (DMIRS) prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

2.5 Contact details for enquiries

If different from the applicant's contact details, enter the contact details of a person with whom DWER or DMIRS should liaise with (e.g. a consultant).

| Same as applicant's contact details | □ Yes | ⊠ No |
|-------------------------------------|-------|------|
|-------------------------------------|-------|------|

If 'No' – complete the following:

| Contact name | | |
|-----------------------------------|--|--|
| Position (if applicable) | | |
| Company name (if applicable) | | |
| Contact phone number (1) | | |
| Business or postal address line 1 | | |
| Business or postal address line 2 | | |
| Suburb | | |
| State | | |
| Email address | | |

Part 3 - Land details

- You must accurately describe the location of the land where your clearing is proposed.
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

3.1 Property details

If 'No' — complete the following:

| Land description Provide the following details, as applicable, for all properties: - volume and folio number - lot or location number(s) - crown lease or reserve number - pastoral lease number - mining tenement number | Lot 26 on Plan 17657 (Lismore Capital Pty Ltd) Lot 1254 on Plan 5564 (Proten Western Australia Pty Ltd) Lot 12211 on Plan 17657 (Department of Planning, Lands and Heritage) | | |
|---|---|----------|------|
| Street address – Line 1 | Hunter Road | | |
| Street address – Line 2 | | | |
| Suburb | Orange Springs | | |
| State | WA | Postcode | 6503 |
| Local government area(s) | Shire of Gingin | | |
| Land zoning | Shire of Gingin Local Planning Scheme No 9: Lot 1254 on Plan 5564 – Rural Uncoded Lot 12211 on Plan 17657 – Rural Smallholding Lot 26 on Plan 17657 - Rural Smallholding | | |

Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

<u>Proof of ownership</u> may include:

- a certificate of title (that is less than 6 months old)
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

| Relationship to landowner (select one of the following options) | Complete the following |
|---|--|
| ☐ I am the landowner | □ Attach <u>proof of ownership</u> |
| ☐ I am lodging a form on behalf of the landowner (e.g. a consultant) | □ Attach proof of ownership |
| ☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form) | □ Attach <i>proof of ownership</i> □ Complete and attach an 'Acting on behalf and jointly responsible' letter |
| ☐ I am likely to become the landowner | ☐ Attach the Certificate of Title ☐ Attach evidence of the pending transfer of ownership and/or contract of sale ('offer and acceptance') |
| ☐ I will undertake the clearing activities with the landowner's authority and will be the permit holder | □ Attach <i>proof of ownership</i> □ Complete and attach an 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner) |
| | ✓ Attach <u>proof of ownership</u> ✓ Complete and attach '<u>Authority to access and clear native</u> <u>vegetation</u>' letter (if the applicant is not the landowner) |

Part 5 - Proposed clearing

5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: We will decline / return forms (as applicable) if you do not provide sufficient information for this question.

☑ An ESRI shapefile with the following properties (preferred)

- Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 1994/2020 (geographic latitude / longitude)
- Datum: GDA 1994 / GDA 2020 (please specify which was provided)

☑ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an *Environment Protection and Biodiversity* Conservation Act 1999 (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

5.2 Size

- If you propose to clear a patch(s) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero).
- If you propose to remove only individual trees from the area(s) (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees (and mark total area as estimated hectares).
 - Note: If any shrubs, grasses, and/or groundcover plants MAY be damaged in the clearing process, add this to the total area.
- If you propose to clear an area of vegetation within a larger footprint, enter the hectare
 value for the total size of the area to be cleared (mark number of trees as zero) and the
 size of the footprint. For example, 5 hectares of clearing within a 10 hectare footprint.
 This option is only available for <u>purpose permit</u> applications.
- Enter values for BOTH number of trees and the size of the area if you are clearing individual trees in one area AND a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = 10,000 m² Area of circle = 3.14 x radius²
1 acre = 0.4 hectares / 4,000 m² Area of a rectangle = length x width

1 tree = 0.01 hectares / 100 m² Area of a triangle = $\frac{1}{2}$ length x perpendicular height

| Total area of clearing proposed (hectares) | 0.47 ha Revised to 0.35 ha |
|--|-----------------------------------|
| Footprint of clearing (hectares) (purpose permit only) | 0.47 ha |
| Number of individual trees to be removed | 0 |

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

5.3 Purpose

Provide the reason for proposed clearing Proten Western Australia Pty Ltd (Proten) (e.g. road construction, grazing and pasture, hazard has engaged Santrev Farm Mark reduction, horticulture, timber harvesting etc.) (Santrev), who has subsequently engaged ECWA, to construct high voltage (HV) powerlines and Western Power interconnections to supply Proten's chicken farm located on Lot 1254 Hunter Road, Orange Springs. The total alignment is approximately nine hectares, however most of the area is nonnative vegetation and consists of agricultural grassland (this is excluded as part of this application). Only a small amount, up to 0.47 hectares, of native vegetation clearing is required within the alignment. This will be within a 16 m wide easement, crossing the Moore River in the south (refer to Figure 02 – Attachment C). Clearing of this portion of native vegetation is required to support the safe access, and maintenance to the HV powerlines and poles during operations.

Specify what the final land use will be after clearing

Access and maintenance corridor for the HV powerlines during operations.

5.4 Method

| (i.e. burning, cutting, draining, flooding, grazing, | Manual falling, manual limb trimming, ground cover slashing. |
|--|--|
| mechanical clearing/bulldozing or other – specify) | g. cana cover commig. |

5.5 Timeframe

| Period within which you propose to do the clearing | Start date: 5 September 2022 |
|--|------------------------------|
| (e.g. 1/7/2022 to 30/8/2024) | End date: 5 October 2022 |

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

5.6 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider?
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, we will ask you to do so during the validation of this form.

Provide the avoidance and mitigation details

The proposed HV powerline corridor alignment was determined by situating the linear infrastructure to ensure that it appropriately ties into Western Power's existing infrastructure (i.e. overhead powerlines, and transformer) to ultimately reduce the footprint (i.e. reducing the length of the alignment), and subsequent native vegetation clearing requirements as far as reasonably practicable.

An additional realignment of the proposed corridor was made near the Moore River to avoid intersecting an Environmentally Sensitive Area (ESA).

In consultation with Western Power, the proposed infrastructure corridor width was also reduced from 20 m wide to 16 m wide in the portion where it traverses the Moore River. This reduces the potential impacts to native vegetation along the Moore River.

The Native Vegetation Clearing Area (NVCA) shall be marked by flagging prior to mobiliising the vegetation clearing personnel. Access to and from the easement for clearing purposes shall be along the approved conductor route to minimise ground disturbance.

The vegetation (trees) proposed to be cleared, will be lopped at their base, and their root systems and stumps will remain *in-situ*. However, where practicable and safe to do so, only the limbs of the trees will be removed to allow a safe clearance for the overhead conductors, rather that removing the entire tree to the base. Existing understory (smaller shrubs and grasses) will not be removed. Larger shrubs however, may need to be trimmed back (but will not be removed).

Part 6 - Offset

| Do you want to submit a clearing offset proposal with your form? | □ Yes ⊠ No |
|---|-----------------------|
| If 'Yes' – please complete and attach Appendix A of the Clearing of native vegetation offsets procedure guideline as a supporting document for your form. | ☐ Appendix A attached |

Part 7 – Surveys for assessments (IBSA and IMSA)

| Do you want to submit marine or biodiversity surveys in support of your form? | ☐ Yes ☒ No – skip to Part 8 |
|---|-----------------------------|
| support of your form? | |

7.1 Biodiversity surveys

If you want to submit any biodiversity surveys to support this form, you must follow the Environmental Protection Authority's (EPA) <u>Instructions for the preparation of data packages for the Index of Biodiversity Surveys for Assessments</u> (IBSA). If you do not meet the IBSA requirements, DWER/DMIRS (as applicable) may decline/return your form.

Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER/DMIRS (as applicable). Please note DWER / DMIRS will suspend the assessment timeframes for your form until you provide the IBSA number(s).

| Have you submitted all the biodiversity surveys that support this form to the Index of Biodiversity Surveys for Assessment, available at ibsasubmissions.dwer.wa.gov.au ? | ☐ Yes☒ Not applicable |
|---|--|
| Provide an IBSA number (preferred) or a submission number(s) | |

7.2 Marine surveys

If you want to submit any marine surveys to support this form, you must follow the EPA's <u>Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments</u> (IMSA). If you do not meet the IMSA requirements, DWER may decline/return your form,

| Have you prepared all the marine surveys that support this form in accordance with the EPA's <i>Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments?</i> | ☐ Yes ☑ Not applicable |
|--|------------------------|
|--|------------------------|
