Application to amend a clearing permit

Environmental Protection Act 1986, section 51KA

FORM C4

The clearing of native vegetation is prohibited in Western Australia unless a clearing permit has been granted for the clearing or where a permit is not required (either due to a referral determination that one is not needed or because an exemption applies). A person who causes or allows unauthorised clearing commits an offence.

For further information on the stages of assessment for clearing permit applications (including amendments to existing permits), see the [Procedure: Native vegetation clearing permits](#) on DWER's website.

Part 1: Assessment bilateral agreement	
<p>If the amendment of a clearing permit will or is likely to impact on a matter of national environmental significance identified under the <i>Environment Protection and Biodiversity Conservation Act 1999</i> (Cth) (EPBC Act) the original application must have been assessed in accordance with the bilateral assessment, and a variation under the EPBC Act is required prior to submitting this amendment application form.</p> <p>To be assessed in this manner, the proposed clearing action must be referred to the Commonwealth under the EPBC Act and deemed a 'controlled action' prior to submitting this application form.</p> <p>Further information is located in <i>Form Annex C7</i> and <i>A guide to native vegetation clearing processes under the Assessment bilateral agreement</i> available at www.der.wa.gov.au/our-work/clearing-permits.</p>	Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process such as the assessment bilateral agreement?
	<input type="checkbox"/> Yes EPBC number: <input style="width: 100px;" type="text"/>
	<input checked="" type="checkbox"/> No Proceed to Part 2
	List the controlling provisions identified in the notification of the controlled action decision.
	<input type="checkbox"/> <i>Form Annex C7</i> is complete and the required supporting information is attached.

Part 2: Clearing permit details

Part 4: Proposed amendments		
<p>Additional information to support the assessment of your application to amend may be attached.</p> <p>Please ensure you have included the following as part of your application:</p> <ul style="list-style-type: none"> a photocopy of the granted clearing permit, with proposed changes highlighted, <i>and</i> payment of the prescribed fee. <p>When providing details of the proposed change(s), if any additional clearing is proposed, include details of:</p> <ul style="list-style-type: none"> the proposed method of the clearing; the purpose of the clearing; the period within which the clearing is proposed to be undertaken (taking note of the published minimum assessment timeframes for DWER / DMIRS, as applicable); <i>and</i> the final land use. 	<p>Indicate the types of proposed change(s) to your clearing permit by selecting the relevant box(es):</p> <p><input type="checkbox"/> Extend the duration of the clearing permit.</p> <p><input type="checkbox"/> Vary / add / remove a permit condition relating to a matter other than the size or boundary of the area to be cleared.</p> <p><input checked="" type="checkbox"/> Amend the size of the area permitted to be cleared, or add / remove a land parcel on the clearing permit.</p> <p><input type="checkbox"/> Redescribe the boundary of the area authorised to be cleared <i>[for an area permit only]</i></p> <p><input type="checkbox"/> Make a correction to the clearing permit.</p> <p><input type="checkbox"/> Other.</p> <p>Provide details of the proposed change(s), and the rationale(s) for it / them.</p> <p>The clearing permit boundary submitted for CPS 9900/1 excised the DPLH buffer for all registered aboriginal heritage sites out of an abundance of caution.</p> <p>Since this time, a targeted heritage survey has been conducted over the area close to the existing mining waste landforms to determine the sites' status regarding a proposed open pit. Advice given by the survey team (comprising Traditional Owners, Knowledge Holders, anthropologists, and archaeologists) was that the sites not already subject to a s.18 permit were of low significance and therefore AGAA are able to operate within the DPLH buffer zone. The sites are well defined in the field and in AGAA's spatial database and the mining design is such that the sites will not be impacted or harmed by the proposed open pit project.</p> <p>The amendment to the original permit boundary is minor and simply fills in the area between the actual defined sites and the DPLH buffer. This also aligns with existing disturbance and Mining Proposal Development Envelopes.</p> <p>The small area of increase is well within the existing mining development area and is sparsely vegetated with minimal fauna habitat present.</p> <p>AGAA is seeking the following with this amendment:</p> <ol style="list-style-type: none"> Increase to permit footprint area of 23.7 hectares for a new total of 1815.9 ha (1.3% increase) No change to the approved area of clearing, this will remain as 260 ha 	
	<p>For an application to amend the size of the area permitted to be cleared, or add a land parcel to the clearing permit, you must have the authority of the landowner to access the land and undertake the clearing.</p>	<p>State the nature of the applicant's authority to access the land to be cleared. Evidence of authority can include e.g. a copy of the certificate of title or a letter of authority signed by the landowner or other person with authority to give legal land access permission. <i>[Attach evidence of authority. Note that a letter of authority must explicitly state the applicant has authority to clear on the land.]</i></p> <p>Tenement holder. Refer to Attachment 1: M39/1116 Proof of Ownership</p>
	<p>Provide additional property details if required – if applying to extend the size of the area to be cleared into another land parcel.</p>	<p>Land description: volume and folio number, lot or location number(s), Crown lease or reserve number, pastoral lease number, or mining tenement number of all properties.</p> <p>No change, all activities are to be on M39/1116</p>
	<p>You must provide evidence that avoidance and mitigation options have been pursued to eliminate, reduce or otherwise</p>	<p>Have alternatives that would avoid or minimise the need for clearing been considered and applied? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If yes, provide details:</p>

Part 4: Proposed amendments	
mitigate the need for, and scale of, the proposed clearing of native vegetation.	The proposed open pit project is largely within existing disturbed land currently covered by a waste rock landform.
Refer to DWER's Clearing of native vegetation offsets procedure guideline available on the DWER website, and the EPA's WA Environmental Offsets Policy and Guidelines on the EPA website for further information.	Do you want to submit a clearing permit offset proposal with your application? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	If yes, provide details, and complete and attach Appendix A of the <i>Clearing of native vegetation offsets procedure guideline</i> .
