Application to amend a clearing permit

Environmental Protection Act 1986, section 51KA

FORM C4

The clearing of native vegetation is prohibited in Western Australia unless a clearing permit has been granted for the clearing or where a permit is not required (either due to a referral determination that one is not needed or because an exemption applies). A person who causes or allows unauthorised clearing commits an offence.

For further information on the stages of assessment for clearing permit applications (including amendments to existing permits), see the <u>Procedure: Native vegetation clearing permits</u> on DWER's website.

For an application to amend the size of the area permitted to be cleared, or add a land parcel to the clearing permit, you must have the authority of the landowner to access the land and undertake the clearing.	State the nature of the applicant's authority to access the land to be cleared. Evidence of authority can include e.g. a copy of the certificate of title or a letter of authority signed by the landowner or other person with authority to give legal land access permission. [Attach evidence of authority. Note that a letter of authority must explicitly state the applicant has authority to clear on the land.] Please refer to the certificate of the title and lease agreement attached. Currently, the land is a reserve under management order (XE 0622319), the current holder is WAAA in the care of DPIRD. 4Ways P/L has access to the land as per the 3-year development lease and negotiated extension of the team to this lease.							
Provide additional property details if required – if applying to extend the size of the area to be cleared into another land parcel.	Land description: volume and folio number, lot or location number(s), Crown lease or reserve number, pastoral lease number, or mining tenement number of all properties.
