

CLEARING REFERRAL DETERMINATION NOTICE

Referral details

REF number:	REF 10007/1
Referral submitted by:	Cable Sands (WA) Pty Ltd
Purpose of proposed clearing:	Sand Mining
Location of proposed clearing:	Mining Lease 70/1396

Referral determination:

The Department of Mines, Industry Regulation and Safety has considered this referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that:

- a clearing permit is required for the proposed clearing of the area(s) cross-hatched orange on the attached map detailed in Schedule 1.

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- the area proposed to be cleared (the area) is **not** small relative to the total remaining vegetation —
 - within the region in which the area is situated
- there are known or likely significant environmental values identified within the area
- there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment
