

## CLEARING REFERRAL DETERMINATION NOTICE

### Referral details

REF number:	REF 10066/1
Referral submitted by:	Arc Infrastructure
Purpose of proposed clearing:	Remediation works to railway infrastructure - Strawberry Bridge footings and stabilization of water course bank.
Location of proposed clearing:	Lot 88 on Plan 4300, Lockier Lot 90 on Plan 4300, Lockier
Size of proposed clearing:	0.63 hectares

### Referral determination:

The Department of Water and Environmental Regulation has considered this referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that:

- a clearing permit is required for the proposed clearing of the area(s) cross-hatched orange on the attached map detailed in Schedule 1.

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- the area proposed to be cleared (the area) is **not** small relative to the total remaining vegetation —
  - within the region in which the area is situated, and/or
  - of the ecological community of which the vegetation proposed to be cleared forms part.

Yours sincerely,

Juraj Galba  
A/SENIOR ENVIRONMENTAL OFFICER  
NATIVE VEGETATION REGULATION

*Officer delegated under section 20  
of the Environmental Protection Act 1986*

24 February 2023
