

Department of Water and Environmental Regulation
Department of Mines, Industry Regulation and Safety

Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (including maps etc.). We will return / decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

Part 1 – Form type

Select your form type.	⊠ Referral of proposed clearing (s.51DA of the EP Act)
NOTE: Where appropriate in this form, and unless stated	☐ Application for an area permit (s.51E of the EP Act)
otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer' respectively.	☐ Application for a purpose permit (s.51E of the EP Act)

Part 2 – Applicant details

2.1 Applicant name

For area	□ Applying as an individual – complete the following:	
permits: If granted, the name(s) of (all)	Title	
landowner(s) will be listed as	Name(s)	
'permit holders' on the permit.	☐ Applying as a following:	body corporate or other entity formed at law – complete the
For purpose permits:	Name	
If granted, the name(s) of (all)	Australian Com	pany Number (ACN)
applicant(s) will go on the permit.	,	government entity (e.g. government department, local nority, or other statutory body)
pomit	Name	Department of Education

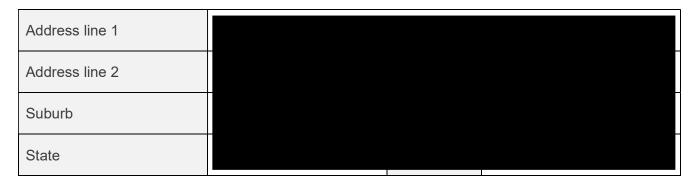

2.2 Applicant contact details

Provide the contact details for the above (primary contact).

Title	
First name	
Last name	
Position	
Company name	
Contact phone number (1)	
Email address	

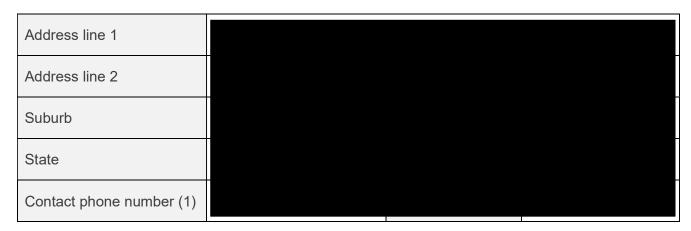

2.2 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

2.3 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

2.4 Electronic correspondence consent

Email address

Both the Department of Water and Environmental Regulation (DWER) and Department of Mines, Industry Regulation and Safety (DMIRS) prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

I consent that all written correspondence between myself (the applicant) and DWER/DMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.			⊠ Yes	□ No		
	2.5 Contact details for enquiries If different from the applicant's contact details, enter the contact details of a person with whom DWER or DMIRS should liaise with (e.g. a consultant).					
Same as applicant's contact details					⊠ Yes	□ No
	If 'No' – complete the following:					
	Contact name					
	Position (if applicable)					
	Company name (if applicable)					
	Contact phone number (1)		Phone	number (2)		
	Business or postal address line 1					
	Business or postal address line 2					
	Suburb					
	State			Postcode		
		I				

Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

3.1 Property details

I have a large number of properties and have given the relevant details in an attached supporting document.	☐ Yes – skip to Part 4	⊠ No	

If 'No' – complete the following:

Land description Provide the following details, as applicable, for all properties: - volume and folio number - lot or location number(s) - crown lease or reserve number - pastoral lease number - mining tenement number	Lot 300 of Deposite Volume LR3168 Fol		
Street address – Line 1	50 Third Avenue		
Street address – Line 2			
Suburb	Kelmscott		
State	WA	Postcode	6111
Local government area(s)	City of Armadale		
Land zoning	Reserved as "Public Metropolitan Regio		h school" under the

Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

Proof of ownership may include:

- a certificate of title (that is less than 6 months old)
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following
☐ I am the landowner	☐ Attach proof of ownership
☑ I am lodging a form on behalf of the landowner (e.g. a consultant)	⊠ Attach proof of ownership
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach proof of ownership ☐ Complete and attach an 'Acting on behalf and jointly responsible' letter
☐ I am likely to become the landowner	☐ Attach the Certificate of Title ☐ Attach evidence of the pending transfer of ownership and/or contract of sale ('offer and acceptance')
☐ I will undertake the clearing activities with the landowner's authority and will be the permit holder	☐ Attach proof of ownership ☐ Complete and attach an 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)
☐ A person with multiple land parcels	☐ Attach proof of ownership ☐ Complete and attach 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)

Part 5 – Proposed clearing

5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: We will decline / return forms (as applicable) if you do not provide sufficient information for this question.

- Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 1994/2020 (geographic latitude / longitude)
- Datum: GDA 1994 / GDA 2020 (please specify which was provided)

⊠ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

5.2 Size

- If you propose to clear a patch(s) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero).
- If you propose to remove only individual trees from the area(s) (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees (and mark total area as estimated hectares).
 - Note: If any shrubs, grasses, and/or groundcover plants MAY be damaged in the clearing process, add this to the total area.
- If you propose to clear an area of vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10 hectare footprint. This option is only available for purpose permit applications.
- Enter values for BOTH number of trees and the size of the area if you are clearing individual trees in one area AND a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = $10,000 \text{ m}^2$ Area of circle = 3.14 x radius^2 1 acre = 0.4 hectares / $4,000 \text{ m}^2$ Area of a rectangle = length x width 1 tree = 0.01 hectares / 100 m^2 Area of a triangle = $\frac{1}{2}$ length x perpendicular height

Total area of clearing proposed (hectares)	0.046 ha
Footprint of clearing (hectares) (purpose permit only)	
Number of individual trees to be removed	

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.)	To facilitate the construction of a new sports hall, new pumps and tanks and infill sections of fencing at the Kelmscott Senior High School.
Specify what the final land use will be after clearing	Kelmscott Senior High School

5.4 Method

Proposed method of clearing	Mechanical clearing
(i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)	

5.5 Timeframe

Period within which you propose to do the clearing	Start date: 05/05/2023.
(e.g. 1/7/2022 to 30/8/2024)	End date: 04/05/2025.

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

5.6 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider?
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, we will ask you to do so during the validation of this form.

Provide the
avoidance and
mitigation
details

The footprints of the new sports hall, new pumps and tanks and infill sections of fencing and immediate surrounds ("study area") has been subject to historic disturbance by the Kelmscott Senior High School development, including the construction of sport courts and an additional car parking area.

The study area was visited by Civica Pty Limited on 11 August 2022 to undertake an aboricultural impact assessment of 60 trees to inform the Development Application of the new sports hall. There were several remnant native trees identified to be removed as the tree or its Tree Protection Zone was within the new sports hall footprint. The 21 native trees proposed to be cleared for this clearing referral includes up to one dead *Acacia* sp. tree, one *Banksia*

attenuata (Slender Banksia) tree, four *Banksia menziesii* (Firewood Banksia) trees, twelve *Eucalyptus marginata* (Jarrah) trees, three *Xylomelum occidentale* (Woody Pear) trees (Figure B).

Clearing of native vegetation will be required within the new sports hall footprint. The location of the new sports hall was selected to be centred over a previously disturbed area, the existing sport courts, therefore minimising the amount of vegetation to be cleared. Furthermore, it is proposed that any Grass Trees within or less than 0.5 m from the new sports hall footprint will be relocated prior to commencing clearing works.

A mature tree was proposed to be removed from the pumps and tanks footprint, which was originally located on the grassed lawn adjacent to Third Avenue. The tree was inspected by RPS on 31 January 2023 and recorded as a *Corymbia calophylla* (Marri). This tree meets the DAWE's Referral guideline for 3 WA threatened black cockatoo species definition of a potential black cockatoo breeding tree, as it had a Diameter at Breast Height of greater than 500 mm and no visible hollows. In response to identification of this tree, the pumps and tanks footprint was relocated to the student carpark in order to retain the Marri tree.

The southern section of infill fencing had previously been designed to run through a stand of trees proposed to be retained. Construction of the fencing would involve installing postholes with a concrete footing, and trees in close proximity could possibly be at risk of damage from these works. The proposed fence line was moved closer to the cadastral boundary to avoid running through the existing trees. A requirement in the fence specifications will be included to protect the trees proposed to be retained.

Part 6 – Offset

Do you want to submit a clearing offset proposal with your form? For more information on environmental offsets, refer to DWER's website and DWER's website and Fact Sheet 11: Environmental offsets for native vegetation clearing permits .	□ Yes ⊠ No
If 'Yes' – please complete and attach Appendix A of the <u>Clearing of native vegetation offsets procedure</u> guideline as a supporting document for your form.	☐ Appendix A attached

Part 7 – Surveys for assessments (IBSA and IMSA)

7.1 Biodiversity surveys

If you want to submit any biodiversity surveys to support this form, you must follow the Environmental Protection Authority's (EPA) <u>Instructions for the preparation of data packages for the Index of Biodiversity Surveys for Assessments</u> (IBSA). If you do not meet the IBSA requirements, DWER/DMIRS (as applicable) may decline/return your form.

Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER / DMIRS (as applicable). Please note DWER / DMIRS will suspend the assessment timeframes for your form until you provide the IBSA number(s).

Have you submitted all the biodiversity surveys that support this form to the IBSA portal, via <u>ibsasubmissions.dwer.wa.gov.au</u> ?	☑ Yes☐ Not applicable
Provide an IBSA number (preferred) or a submission number(s)	IBSA-2023-0038

7.2 Marine surveys

If you want to submit any marine surveys to support this form, you must follow the EPA's Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments (IMSA). If you do not meet the IMSA requirements, DWER may decline / return your form. For more information on IMSA, refer to DWER's website.

Have you prepared all the marine surveys that support this form in accordance with the EPA's <i>Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments</i> ?	☐ Yes ☑ Not applicable
