

Department of Water and Environmental Regulation Department of Mines, Industry Regulation and Safety

Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (including maps etc.). We will return / decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

Part 1 – Form type

Select your <u>form type</u> .	⊠ Referral of proposed clearing (s.51DA of the EP Act)
NOTE: Where appropriate in this form, and unless stated otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer'	 Application for an area permit (s.51E of the EP Act) Application for a purpose permit (s.51E of the EP Act)
respectively.	

Part 2 – Applicant details

2.1 Applicant name

For area permits:	□ Applying as an individual – complete the following:	
If granted, the name(s) of (all)	Title	□ Mr □ Mrs □ Ms □ Other:
landowner(s) will be listed as	Name(s)	
'permit holders' on the permit.	□ Applying as a following:	body corporate or other entity formed at law – complete the
For purpose permits:	Name	
If granted, the name(s) of (all)	Australian Com	ipany Number (ACN)
applicant(s) will go on the permit.	⊠ Applying as a government entity (e.g. government department, local government authority, or other statutory body)	
pornia.	Name	Shire of Nannup

2.2 Applicant contact details

Provide the contact details for the above (primary contact).

Title	⊠ Mr □ Mrs □ Ms □ Other:	
First name		
Last name		
Position		
Company name		
Contact phone number (1)		
Email address		

2.2 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

Address line 1		
Address line 2		
Suburb		
State		

2.3 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

Address line 1		
Address line 2		
Suburb		
State		
Contact phone number (1)		

2.4 Electronic correspondence consent

Both the Department of Water and Environmental Regulation (DWER) and Department of Mines, Industry Regulation and Safety (DMIRS) prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

I consent that all written correspondence between myself (the applicant) and DWER/DMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.	⊠ Yes	□ No
---	-------	------

2.5 Contact details for enquiries

If different from the applicant's contact details, enter the contact details of a person with whom DWER or DMIRS should liaise with (e.g. a consultant).

Same as applicant's contact details

 \boxtimes Yes \Box No

If 'No' – complete the following:

Contact name	
Position (if applicable)	
Company name (if applicable)	
Contact phone number (1)	
Business or postal address line 1	
Business or postal address line 2	
Suburb	
State	
Email address	

Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

3.1 Property details

I have a large number of properties and have given the relevant details in an attached supporting document.	□ Yes – skip to Part 4	⊠ No
---	------------------------	------

If 'No' – complete the following:

Land description Provide the following details, as applicable, for all properties:	Main Roads reserve the intersection of Highway Nannup.		0
 volume and folio number lot or location number(s) crown lease or reserve number pastoral lease number mining tenement number 	Southern Traffic Bri Land ID 3635360 Southern Traffic Bri Land ID 3635358	-	
Street address – Line 1	Intersection Brockn	nan Highway ar	nd Vasse Highway
Street address – Line 2			
Suburb	Nannup		
State	WA	Postcode	6275
Local government area(s)	Shire of Nannup		
Land zoning	Main roads reserve		

Part 4 - Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

Proof of ownership may include:

- a certificate of title (that is less than 6 months old)
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following
□ I am the landowner	□ Attach proof of ownership
□ I am lodging a form on behalf of the landowner (e.g. a consultant)	□ Attach proof of ownership
□ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	 Attach proof of ownership Complete and attach an 'Acting on behalf and jointly responsible' letter
□ I am likely to become the landowner	 Attach the Certificate of Title Attach evidence of the pending transfer of ownership and/or contract of sale ('offer and acceptance')
☑ I will undertake the clearing activities with the landowner's authority and will be the permit holder	 Attach proof of ownership Complete and attach an 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)
□ A person with multiple land parcels	 Attach proof of ownership Complete and attach 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)

Part 5 – Proposed clearing

5.1 Maps and/or spatial data

Select which map	⊠ An ESRI shapefile with the following properties (<i>preferred</i>)
type(s) you will attach with your form.	Geometry type: polygon shape
Note: We will decline / return forms (as	 Coordinate system: Geocentric Datum of Australia (GDA) 2020 (geographic latitude / longitude)
applicable) if you do not provide sufficient	Datum: GDA 2020
information for this question.	\boxtimes An aerial photograph or map with a north arrow, clearly marking the proposed clearing area
	Note:
	 An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
	• You must provide an ESRI shapefile if the form requires an assessment under an <i>Environment Protection and Biodiversity Conservation Act 1999</i> (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

5.2 Size

- If you propose to clear a patch(s) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero).
- If you propose to remove only individual trees from the area(s) (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees (and mark total area as estimated hectares).

Note: If any shrubs, grasses, and/or groundcover plants MAY be damaged in the clearing process, add this to the total area.

- If you propose to clear an area of vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10 hectare footprint. This option is only available for purpose permit applications.
- Enter values for BOTH number of trees and the size of the area if you are clearing individual trees in one area AND a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

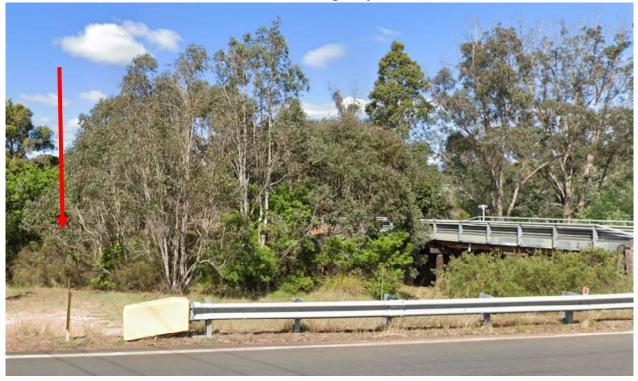

1 hectare = 10,000 m ²	Area of circle = 3.14 x radius^2
1 acre = 0.4 hectares / 4,000 m ²	Area of a rectangle = length x width
1 tree = 0.01 hectares / 100 m ²	Area of a triangle = $\frac{1}{2}$ length x perpendicular height

Total area of clearing proposed (hectares)	5 trees = 0.1 hectares / 00 m ²
Footprint of clearing (hectares) (purpose permit only)	
Number of individual trees to be removed	3 small trees 4 shrubs

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

Trees located on the eastern side of Brockman Highway. .

Looking south off Vasse Highway towards Bridge 0257A. Crossing over the highway to the east of the barrier in the foreground. The trees to be cleared to connect with existing pathway already constructed to the south of Bridge 0257A. Pathway location indicated by red arrow.

Proposed pathway across creek indicated by red

arrow.

Northern side of creek – past bush from previous picture. Next pic at water's edge northern side.

Southern side view poiny arrow indicating proposed pathway location

5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.)	Construction of a box culvert river crossing and multi-use pathway to allow non- motorized users to cross the creek safely away from the vehicle traffic.
Specify what the final land use will be after clearing	Connecting existing pathway to a purpose built multi use pathway. Horse, hikers, walkers, mountain bike riders, Munda Biddi trail riders.

Existing pathway connecting Cockatoo Valley subdivision south of Nannup town site Brockman Highway. Proposed pathway to join up with existing pathway.

Looking north towards Bridge 0256A. Existing pathway on the right hand side of the photograph. Pathway to go to the right of the closest Marri tree in the pic.

5.4 Method

	Hand tool cutting and clearing
(i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)	

5.5 Timeframe

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)		Start date: 1/7/2023	
	End date: 30/06/2024		

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

5.6 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider?
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, we will ask you to do so during the validation of this form.

Provide the avoidance and	The location is the least impact with the proposed pathway going perpendicular across the creek minimizing the clearing required.
mitigation details	The pathway requires minimal clearing and no large trees will be removed. There is access existing to minimize any clearing for the proposed bridge and pathway.

The proposed pathway passes through the least amount of vegetation

Pathway passes through the narrowest section of bush across the creek.

Part 6 – Offset

Do you want to submit a clearing offset proposal with your form? For more information on environmental offsets, refer to <u>DWER's website</u> and <u>Fact Sheet 11: Environmental offsets</u> for native vegetation clearing permits.	□ Yes ⊠ No
If 'Yes' – please complete and attach Appendix A of the <u><i>Clearing of native vegetation offsets procedure</i></u> guideline as a supporting document for your form.	□ Appendix A attached

Part 7 – Surveys for assessments (IBSA and IMSA)

Do you want to submit marine or biodiversity surveys in support of your form?	□ Yes ⊠ No – skip to Part 8
---	-----------------------------

7.1 Biodiversity surveys

If you want to submit any biodiversity surveys to support this form, you must follow the Environmental Protection Authority's (EPA) <u>Instructions for the preparation of data packages for</u> <u>the Index of Biodiversity Surveys for Assessments</u> (IBSA). If you do not meet the IBSA

requirements, DWER/DMIRS (as applicable) may decline/return your form. For further information on IBSA, refer to <u>DWER's website</u>.

Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER / DMIRS (as applicable). Please note DWER / DMIRS will suspend the assessment timeframes for your form until you provide the IBSA number(s).

Have you submitted all the biodiversity surveys that support this form to the IBSA portal, via <u>ibsasubmissions.dwer.wa.gov.au</u> ?	☐ Yes⊠ Not applicable
Provide an IBSA number (preferred) or a submission number(s)	

7.2 Marine surveys

If you want to submit any marine surveys to support this form, you must follow the EPA's *Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments* (IMSA). If you do not meet the IMSA requirements, DWER may decline / return your form. For more information on IMSA, refer to <u>DWER's website</u>.

Have you prepared all the marine surveys that support this form in	□ Yes
accordance with the EPA's Instructions for the preparation of data	
packages for the Index of Marine Surveys for Assessments?	☑ Not applicable
