

CLEARING REFERRAL DETERMINATION NOTICE

Referral details

Referral number:	REF 10303/1
Referral submitted by:	Ord Irrigation Cooperative
Purpose of proposed clearing:	Drainage and access track repairs and maintenance
Location of proposed clearing:	Lot 888 on Deposited Plan 28474
Locality:	Kununurra
Clearing size:	4.6 hectares

Referral determination:

The Department of Water and Environmental Regulation has considered the above referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that a clearing permit **is required** for the proposed clearing of the areas cross-hatched orange on the attached maps detailed in Schedule 1 (the referral area).

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- there are known or likely significant environmental values identified within the referral area; and
- there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.

Juraj Galba
A/SENIOR ENVIRONMENTAL OFFICER
NATIVE VEGETATION REGULATION

*Officer delegated under section 20 of
the Environmental Protection Act 1986*
