

CLEARING REFERRAL DETERMINATION NOTICE

Referral details

Referral number:	REF 10323/1
Referral submitted by:	Shire of Harvey
Purpose of proposed clearing:	Hazard reduction for line of sight in nearby driveway
Location of proposed clearing:	Weir Road reserve (PIN 1317941)
Locality:	Harvey
Clearing size:	One (1) native tree

Referral determination:

The Department of Water and Environmental Regulation has considered the above referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that a clearing permit **is required** for the proposed clearing of the area cross-hatched orange on the attached map detailed in Schedule 1 (the referral area).

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- the referral area is not small relative to the total remaining vegetation of the ecological community of which the vegetation proposed to be cleared forms part
- there are known or likely significant environmental values identified within the referral area; and
- there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.
