# Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (including maps etc.). We will return / decline any forms that are not correctly completed.

□ Referral of proposed clearing (s.51DA of the EP Act)

☐ Application for an area permit (s.51E of the EP Act)

☐ Application for a purpose permit (s.51E of the EP Act)

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

## Part 1 - Form type

Select your form type.

form, and unless stated

respectively.

and 'applicant' also mean 'referral' and 'referrer'

Part 2 - Applicant details

NOTE: Where appropriate in this

otherwise, the terms 'application'

art 2 7 Approacht dotaile				
2.1 Applicant name				
For area permits:  If granted, the name(s) of (all)	□ Applying as an individual – complete the following:			
	Title	□ Mr □ Mrs □ Ms	□ Other:	
landowner(s) will be listed as	Name(s)			
'permit holders' on the permit.	△ Applying as a following:	body corporate or othe	er entity formed at law – complete the	
For purpose permits:	Name	City of Busselton		
If granted, the name(s) of (all)	Australian Com	npany Number (ACN)	87285608991	
applicant(s) will go on the permit.		a government entity (e.g. hority, or other statutory	g. government department, local body)	
pormit.	Name	City of Busselton		

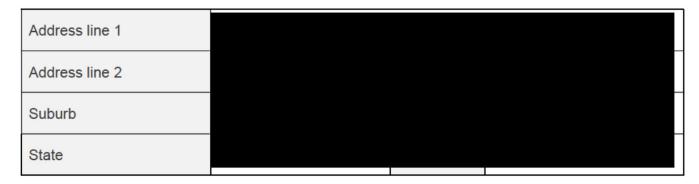

### 2.2 Applicant contact details

Provide the contact details for the above (primary contact).

Title	
First name	
Last name	
Position	
Company name	
Contact phone number (1)	
Email address	

### 2.2 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

### 2.3 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

### 2.4 Electronic correspondence consent

Email address

Both the Department of Water and Environmental Regulation (DWER) and Department of Mines, Industry Regulation and Safety (DMIRS) prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

I consent that all written correspondence between myself (the applicant) and DWER/DMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.			⊠ Yes	□ No
2.5 Contact details for enquiries  f different from the applicant's contact details, enter the contact details of a person with whom DWER or DMIRS should liaise with (e.g. a consultant).				
Same as applicant's contact details	3		⊠ Yes	□No
If 'No' – complete the following:				
Contact name				
Position (if applicable)				
Company name (if applicable)				
Contact phone number (1)		Phone number (2)		
Business or postal address line 1				
Business or postal address line 2				
Suburb				
State		Postcode		
		<u></u>	·	·

## Part 3 - Land details

- You must accurately describe the location of the land where your clearing is proposed.
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

### 3.1 Property details

I have a large number of properties and have given the relevant details in an attached supporting document.	☐ Yes – skip to Part 4	⊠ No
---	------------------------	------

### If 'No' - complete the following:

Land description  Provide the following details, as applicable, for all properties:  - volume and folio number  - lot or location number(s)  - crown lease or reserve number  - pastoral lease number  - mining tenement number	Victoria Square Park  Lot 299 — Peel Tce  Reserve Public Recreation  Vol & Fol : 43/257		
Street address – Line 1	Lot 229 Peel Tce		
Street address – Line 2			
Suburb	Busselton		
State	WA	Postcode	6280
Local government area(s)	City of Busselton		
Land zoning	Reserve Public Recreation		

## Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

### Proof of ownership may include:

- a certificate of title (that is less than 6 months old)
- a pastoral or mining lease
- · public authority that has care, control or management of the land
- · other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following
⊠ I am the landowner	☐ Attach proof of ownership
☐ I am lodging a form on behalf of the landowner (e.g. a consultant)	☐ Attach proof of ownership
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach proof of ownership ☐ Complete and attach an 'Acting on behalf and jointly responsible' letter
☐ I am likely to become the landowner	☐ Attach the Certificate of Title ☐ Attach evidence of the pending transfer of ownership and/or contract of sale ('offer and acceptance')
□ I will undertake the clearing activities with the landowner's authority and will be the permit holder	☐ Attach proof of ownership ☐ Complete and attach an 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)
☐ A person with multiple land parcels	☐ Attach proof of ownership ☐ Complete and attach 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)

## Part 5 - Proposed clearing

#### 5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: We will decline / return forms (as applicable) if you do not provide sufficient information for this question.

☐ An ESRI shapefile with the following properties (preferred)

- Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 2020 (geographic latitude / longitude)
- Datum: GDA 2020

⊠ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

#### Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

#### 5.2 Size

- If you propose to clear a patch(s) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero).
- If you propose to remove only individual trees from the area(s) (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees (and mark total area as estimated hectares).
  - Note: If any shrubs, grasses, and/or groundcover plants MAY be damaged in the clearing process, add this to the total area.
- If you propose to clear an area of vegetation within a larger footprint, enter the hectare
  value for the total size of the area to be cleared (mark number of trees as zero) and the
  size of the footprint. For example, 5 hectares of clearing within a 10 hectare footprint.
  This option is only available for purpose permit applications.
- Enter values for BOTH number of trees and the size of the area if you are clearing individual trees in one area AND a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = 10,000 m<sup>2</sup> Area of circle = 3.14 x radius<sup>2</sup>
1 acre = 0.4 hectares / 4,000 m<sup>2</sup> Area of a rectangle = length x width
1 tree = 0.01 hectares / 100 m<sup>2</sup> Area of a triangle = ½ length x perpendicular height

Total area of clearing proposed (hectares)	NOTE:
Footprint of clearing (hectares) (purpose permit only)	Reduced to 4 trees during validation.
Number of individual trees to be removed	5 x Agonis Flexuosa 'Peppermint trees'

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

#### 5.3 Purpose

(e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.)	The 5 Peppermint trees have had QTRA inspections and deemed unsafe, needing removal asap. Extensive decay in lower trunks, trunk fractures, torsional cracking in trunks, previous stem and trunk failure, cracks in codominant forks.
Specify what the final land use will be after clearing	Reserve Public Recreation

#### 5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)	Mechanical Removal – Chainsaws and stump grinder.
---	---

#### 5.5 Timeframe

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)  Start date: November 2023  End date: June 2024
---

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

#### 5.6 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider?
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, we will ask you to do so during the validation of this form.

Provide the avoidance and mitigation details	Bunt off and tag the correct trees for removal. Minimal machine/plant use. Spotters on site to protect other trees in the area from any accidental damage. We have already planted 3 x new Agonis Flexuosa in this reserve in June to counter the loss and will be planting another 8 (at the least) in this reserve as replacements to recover the loss when the 5 x applied have been removed.
