

## CLEARING REFERRAL DETERMINATION NOTICE

### Referral details

Referral number:	REF 10379/1
Referral submitted by:	City of Busselton
Purpose of proposed clearing:	Hazard reduction
Location of proposed clearing:	Lot 229 on Deposited Plan 225893
Locality:	Busselton
Clearing size:	4 native trees

### Referral determination:

The Department of Water and Environmental Regulation has considered the above referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that a clearing permit **is required** for the proposed clearing of the areas cross-hatched orange on the attached map detailed in Schedule 1 (the referral area).

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically, there are known, or likely significant environmental values identified within the referral area and there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.
