

Department of Water and Environmental Regulation Department of Mines, Industry Regulation and Safety

Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (including maps etc.). We will return / decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

⊠ Referral of proposed clearing (s.51DA of the EP Act)

☐ Application for an area permit (s.51E of the EP Act)

☐ Application for a purpose permit (s.51E of the EP Act)

Part 1 - Form type

Select your form type.

NOTE: Where appropriate in this

form, and unless stated otherwise,

'applicant' also mean 'referral' and 'referrer' respectively.

the terms 'application' and

Part 2 – Applic	ant details				
2.1 Applicant name					
For area permits:					
If granted, the name(s) of	Title	☐ Mr ⊠ Mrs ☐ Ms ☐ Other:			
(all) landowner(s) will be listed as 'permit holders' on the	Name(s)	Ashley Erin Hetaraka			
	☐ Applying as a body corporate or other entity formed at law – complete the following:				
permit.	Name				
For purpose permits:	Australian Com	apany Number (ACN)			
If granted, the name(s) of (all)		government entity (e.g. government department, local ority, or other statutory body)			
applicant(s) will go on the permit.	Name				

2.2 Applicant contact details

Provide the contact details for the above (primary contact).

Title	
First name	-
Last name	
Position	
Company name	
Contact phone number (1)	
Email address	

2.2 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

(primary contact).			
Address line 1			
Address line 2			
Suburb	-		
State			

2.3 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

Address line 1			
Address line 2			
Suburb			
State	Postcode		
Contact phone number (1)	Phone num	nber (2)	

2.4 Electronic correspondence consent

Both the Department of Water and Environmental Regulation (DWER) and Department of Mines, Industry Regulation and Safety (DMIRS) prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

I consent that all written correspondence between myself (the applicant) and DWER/DMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.				⊠ Yes	□ No
2.5 Contact details for enquiries					
If different from the applicant's conta DWER or DMIRS should liaise with		ct detai	ls of a person	with whor	n
Same as applicant's contact details				⊠ Yes	□No
If 'No' – complete the following:					
Contact name					
Position (if applicable)					
Company name (if applicable)					
Contact phone number (1)	P	hone n	umber (2)		
Business or postal address line 1					
Business or postal address line 2					
Suburb					
State			Postcode		
Email address					

Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

3.1 Property details

I have a large number of properties and have given the relevant details in an attached supporting document.	☐ Yes – skip to Part 4	⊠ No

If 'No' – complete the following:

If 'No' – complete the following:			
 Land description Provide the following details, as applicable, for all properties: volume and folio number lot or location number(s) crown lease or reserve number pastoral lease number mining tenement number 	Plan: P412590 Lot: 203 Volume: 2955 Folio: 873 VG No: 2058990		
Street address – Line 1	88 Jules Rd		
Street address – Line 2			
Suburb	Gelorup		
State	WA	Postcode	6230
Local government area(s)	Local government area(s) Shire of Capel		
Land zoning	Residential		

Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

Proof of ownership may include:

- a certificate of title (that is less than 6 months old)
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following
⊠ I am the landowner	⊠ Attach proof of ownership
☐ I am lodging a form on behalf of the landowner (e.g. a consultant)	☐ Attach proof of ownership
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach proof of ownership ☐ Complete and attach an 'Acting on behalf and jointly responsible' letter
☐ I am likely to become the landowner	☐ Attach the Certificate of Title ☐ Attach evidence of the pending transfer of ownership and/or contract of sale ('offer and acceptance')
☐ I will undertake the clearing activities with the landowner's authority and will be the permit holder	☐ Attach proof of ownership ☐ Complete and attach an 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)
☐ A person with multiple land parcels	☐ Attach proof of ownership ☐ Complete and attach 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)

Part 5 – Proposed clearing

5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: We will decline / return forms (as applicable) if you do not provide sufficient information for this question.

☐ An ESRI shapefile with the following properties (preferred)

- Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 2020 (geographic latitude / longitude)
- Datum: GDA 2020

⊠ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

5.2 Size

- If you propose to clear a patch(s) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero).
- If you propose to remove only individual trees from the area(s) (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees (and mark total area as estimated hectares).
 Note: If any shrubs, grasses, and/or groundcover plants MAY be damaged in the clearing process, add this to the total area.
- If you propose to clear an area of vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10 hectare footprint. This option is only available for purpose permit applications.
- Enter values for BOTH number of trees and the size of the area if you are clearing individual trees in one area AND a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = $10,000 \text{ m}^2$ Area of circle = 3.14 x radius^2 1 acre = $0.4 \text{ hectares} / 4,000 \text{ m}^2$ Area of a rectangle = length x width 1 tree = $0.01 \text{ hectares} / 100 \text{ m}^2$ Area of a triangle = $\frac{1}{2}$ length x perpendicular height

Total area of clearing proposed (hectares)	≅ 0.1493 hectares
Footprint of clearing (hectares) (purpose permit only)	NOTE: Application area revised to 0.079 hectares during validation

Number of individual trees to be removed 22	Number of individual trees to be removed	22
---------------------------------------------	------------------------------------------	----

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.)	Hazard reduction – to reduce fire hazard and risk of damage to dwelling and water tank
Specify what the final land use will be after clearing	Grassed areas

5.4 Method

Proposed method of clearing	Cutting / mechanical
(i.e. burning, cutting, draining, flooding, grazing,	
mechanical clearing/bulldozing or other – specify)	

5.5 Timeframe

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)	Start date: 1/05/2024
	End date: 1/12/2025

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

5.6 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation. Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider?
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, we will ask you to do so during the validation of this form.

An assessment of the property has been undertaken to identify key areas where strategic clearing should be implemented without compromising the integrity of the native vegetation. This involves strategically removing highly flammable vegetation to reduce the risk of rapid fire spread on the property. Removing the desired vegetation on the property will also contribute to fuel load management on the property and surrounding properties. Being a resident on the property and given the magnitude of the trees, and the amount of fallen leaves that accumulate, while approaching summer in rural southwest region, the proposal to remove vegetation offers a viable solution in providing adequate maintenance and

reduction of risk to wildfires.

Engineering solutions have been considered in conjunction with the removal of vegetation, such as installing reticulation around the property, to further assist in fuel load management, by reducing the likelihood of "flash fuel" occurring on the property. This alternative, while it is within the proposed plan once vegetation is removed, offers only partial remediation of the hazards addressed in the application. This alone is not suffice in addressing concerns mentioned in Section 5.3.

Change of scope was implemented from the initial projected proposal, which involved clearing all vegetation on the property. While the initial proposal is most suited to reducing fire hazard and damage to infrastructure on the property, changes were made to the proposal to better accommodate the integrity of the native vegetation that is situated on the property. A reduced amount of vegetation clearing has been nominated and presented in this proposal

Part 6 – Offset

Do you want to submit a clearing offset proposal with your form? For more information on environmental offsets, refer to DWER's website and DWER's website and For native vegetation clearing permits .	□ Yes ⊠ No
If 'Yes' – please complete and attach Appendix A of the <u>Clearing of native vegetation offsets procedure</u> guideline as a supporting document for your form.	☐ Appendix A attached
Part 7 – Surveys for assessments (IBSA and IMSA)	
Do you want to submit marine or biodiversity surveys in support of your form?	☐ Yes ⊠ No – skip to Part 8

7.1 Biodiversity surveys

If you want to submit any biodiversity surveys to support this form, you must follow the Environmental Protection Authority's (EPA) *Instructions for the preparation of data packages for the Index of Biodiversity Surveys for Assessments* (IBSA). If you do not meet the IBSA requirements, DWER/DMIRS (as applicable) may decline/return your form. For further information on IBSA, refer to DWER's website.

Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER / DMIRS (as applicable). Please note DWER / DMIRS will suspend the assessment timeframes for your form until you provide the IBSA number(s).

Have you submitted all the biodiversity surveys that support this form to the IBSA portal, via <u>ibsasubmissions.dwer.wa.gov.au</u> ?	☐ Yes ☐ Not applicable			
Provide an IBSA number (preferred) or a submission number(s)				
7.2 Marine surveys				
If you want to submit any marine surveys to support this form, you must follow the EPA's <u>Instructions for the preparation of data packages for the Index of Marine Surveys for</u> <u>Assessments</u> (IMSA). If you do not meet the IMSA requirements, DWER may decline / return your form. For more information on IMSA, refer to DWER's website.				
Have you prepared all the marine surveys that support this form in accordance with the EPA's <i>Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments</i> ?	☐ Yes ⊠ Not applicable			

Part 8 – Assessment Bilateral Agreement

The native vegetation clearing processes under Part V of the EP Act have been accredited by the Commonwealth of Australia under the EPBC Act and so can be assessed under an assessment bilateral agreement.

To be assessed this way, the proposed clearing action must have been referred to the Commonwealth under the EPBC Act and deemed a 'controlled action' before you submit this form.

For further information, see DWER's website guidance on the assessment bilateral agreement,

Tof further information, see DWI	ACS Website guidance on the	assessificiti	onateral agreement.
Is your proposed clearing a contr	□ Yes	⊠ No – skip to Part 9	
If 'Yes' – complete the following	:		
Please make sure you have entered all the mandatory details in the <u>Annex C7 form</u>		1	
List the controlling provisions identified in the notification of the controlled action decision

If the clearing is for mineral and petroleum activities authorised under the <i>Mining Act 1978</i> , the various Petroleum Acts, and/or a State Agreement Act, select 'Department of Mines, Industry Regulation and Safety'.		□ Department of Mines, Industry Regulation and Safety⊠ Department of Water and	
For all other clearing activities, select 'Department of Water and Environmental Regulation'.		Environmental Regulation	

9.1 Environmental impact assessment (Part IV of the EP Act)

Clearing may be referred to the EPA if it is considered to be part of a 'significant proposal', as defined by s.37B(1) of the EP Act, or will likely to be part of a larger development. An example is when the clearing is for a road to a future mine.

Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if implemented, to have a significant effect on the environment". If a decision-making authority (e.g. DWER or DMIRS) considers the proposal in this form is likely to constitute a 'significant proposal', under s.38(5) of the EP Act they must refer the proposal to the EPA or for assessment under Part IV, if such a referral has not already been made.

Has the proposed clearing or any	□ Yes			
related matter been referred to the	Enter details:			
EPA?	No − complete question below.			
If 'No' – do you intend to refer the proposal to the EPA?	☐ Yes – intend to refer (proposal is a 'significant proposal') ☐ Yes – intend to refer (proposal will require a s.45C amendment to the current Ministerial Statement)			
	□ No – a current valid Ministerial Statement applies			
	Enter Ministerial Stat	ement number:
