

CLEARING REFERRAL DETERMINATION NOTICE

Referral details

Referral number:	REF 10457/1
Referral submitted by:	City of Busselton
Purpose of proposed clearing:	Maintaining sight lines for intersection
Location of proposed clearing:	Lot 8000 on Deposited Plan 59384 (Crown Reserve 50223)
Locality:	Broadwater
Clearing size:	Six (6) trees

Referral determination:

The Department of Water and Environmental Regulation has considered the above referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that a clearing permit **is required** for the proposed clearing of the area cross-hatched orange on the attached map detailed in Schedule 1 (the referral area).

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- The referral area is not small relative to the total remaining vegetation within the region in which the vegetation proposed to be cleared is situated;
- there are known or likely significant environmental values identified within the referral area; and
- there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.
