

CLEARING REFERRAL DETERMINATION NOTICE

Referral details

Referral number:	REF 10733/1
Referral submitted by:	Regional Power Corporation, trading as Horizon Power
Purpose of proposed clearing:	Installation of an upgraded power station
Location of proposed clearing:	Lot 9 on Deposited Plan 91722
Locality:	Papulankutja
Size of proposed clearing:	3.87 hectares

Referral determination:

The Department of Water and Environmental Regulation has considered the above referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that a clearing permit **is required** for the proposed clearing of the area cross-hatched orange on the attached map detailed in Schedule 1 (the referral area).

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- the state of scientific knowledge about vegetation within the region in which the referral area is situated is not adequate; and
- there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.

Yours sincerely

Josephine Heffernan
A/SENIOR ENVIRONMENTAL OFFICER
NATIVE VEGETATION REGULATION

*Officer delegated under section 20 of
the Environmental Protection Act 1986*
