

Department of Water and Environmental Regulation

Department of Energy, Mines, Industry Regulation and Safety

Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (maps etc.). The Department of Water and Environmental Regulation (DWER) or Department of Energy, Mines, Industry Regulation and Safety (DEMIRS) will return/decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

Part 1 – Form type

Select your form type.	⊠ Referral of pr	oposed clearing (section 51DA of the EP Act)
Note: Where appropriate in this form, and unless stated otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer' respectively.	☐ Application for an area permit (section 51E of the EP Act) ☐ Application for a purpose permit (section 51E of the EP Act)	
Which department are you submitting this form to? If the clearing is for mineral and petroleum activities authorised under the <i>Mining Act 1978</i> , the various petroleum Acts, and/or a State Agreement with areas covered by either mineral or petroleum tenure granted under one of the abovementioned Acts, select 'Department of Energy, Mines, Industry Regulation and Safety'. For all other clearing activities, select 'Department of Water and Environmental Regulation'.		 □ Department of Energy, Mines, Industry Regulation and Safety □ Department of Water and Environmental Regulation

Part 2 – Applicant details

2.1 Applicant name

2.1 Applicant nam	10		
For area permits:	☐ Applying as an individual – complete the following:		
If granted, the	Title	□ Mr □ Mrs □ Ms □ Other:	
name(s) of (all) landowner(s) will be listed as	Name(s)		
'permit holders' on the permit.	☐ Applying as following:	a body corporate or other entity formed at law – complete the	
For purpose permits:	Name		
If granted, the name(s) of (all)	Australian Co	mpany Number (ACN)	
applicant(s) will go on the permit.		a government entity (e.g. government department, local thority, or other statutory body)	
	Name	Department of Transport and Major Infrastructure	
Title First name			
Title			
Last name			
Position			
Company name			
Phone number

State		

Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- Provide copies of associated documents registered against the Certificate of Title (limitations, interests, encumbrances or notifications) where the clearing may impact them (i.e. caveats within freehold Lots).
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

I have a large number of properties and have given the relevant details in an attached supporting document.	☐ Yes – skip to Part 4	⊠ No

If 'No' – complete the following:

Land description Provide the following details, as applicable, for all properties: - volume and folio number - lot or location number(s) - crown lease or reserve number - pastoral lease number - mining tenement number	Survey Number 1 Parcel Identification		16733
Street address – Line 1	End of Breakwater Drive		
Street address – Line 2			
Suburb	Jurien Bay		
State	WA	Postcode	6516
Local government area(s)	Dandaragan		
Land zoning	Unallocated Crown Land		

Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

Proof of ownership may include:

- a certificate of title
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following
☐ I am the landowner	☐ Attach proof of ownership
☐ I am lodging a form on behalf of the landowner (e.g. a consultant)	☐ Attach proof of ownership
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to act on their behalf and acknowledge they will be jointly responsible for the clearing permit
☐ I am likely to become the landowner	☐ Attach evidence of the pending transfer of ownership, including details of current proprietor on certificate of title, and/or contract of sale ('offer and acceptance')
☑ I will undertake the clearing activities with the landowner's authority and will be the permit holder	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to access and clear native vegetation within the property(ies) as detailed in section 3.1 (if the applicant is not the landowner)
☐ I am a person with multiple land parcels within which clearing is proposed	☐ Attach proof of ownership and/or ☐ Attach letters, in which the landowner authorises you to access and clear native vegetation within the properties as detailed in section 3.1 (if the applicant is not the landowner)
☐ I will undertake the clearing activities through the exercise of power conferred by different legislation (e.g. the <i>Energy Operators (Powers) Act 1979</i>)	□ Provide relevant legislative details:

Part 5 – Proposed clearing

5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: DWER/DEMIRS will decline/return forms (as applicable) if you do not provide sufficient information for this question.

☑ An ESRI shapefile with the following properties (preferred)

- Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 2020 (geographic latitude/longitude)
- Datum: GDA 2020

☐ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an *Environment Protection and Biodiversity Conservation Act 1999* (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

5.2 Size

- If you propose to clear a patch(es) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero). For example, "clearing of 5 hectares".
- If you propose to clear only individual trees (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees. For example, "clearing of 10 trees". If any shrubs, grasses, and/or groundcover plants **may** be damaged in the clearing process, enter the total area only.
- If you propose to clear an area of native vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10-hectare footprint. This option is only available for purpose permit applications.
- Enter values for **both** number of trees and the size of the area **only if** you are clearing individual trees in one area **and** a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = $10,000 \text{ m}^2$ Area of circle = 3.14 x radius^2 1 acre = $0.4 \text{ hectares/}4,000 \text{ m}^2$ Area of a rectangle = length x width

1 tree = 0.01 hectares/100 m^2 Area of a triangle = $\frac{1}{2}$ length x perpendicular height

Total area of clearing proposed (hectares)	0.42 ha
Footprint of clearing (hectares) (purpose permit only)	-
Number of individual trees to be cleared	-

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

5.3 Purpose

Provide the reason for proposed clearing

(e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.).

If applicable, provide any additional project overview or explain in detail the activities on the property (e.g. provide context of work proposed and describe how clearing will contribute to overall work activities onsite etc.).

The Jurien Bay Boat Harbour experiences seasonal water quality issues due to seagrass wrack accumulation. A new 170m long northern breakwater is to be built to reduce seagrass wrack entering the boat harbour. To build this structure, machinery requires access to the beach as well as a laydown area for equipment and materials.

The Jurien Bay Boat Harbour was built around 1982 and the area was disturbed during the construction work. Prior to construction, historical records of the coastal vegetation lines over time indicate the foredunes and associated vegetation were more than 50 m further inland than their current position.

Aerial images show there has been significant sand accretion since construction, resulting in vegetation colonization that was not previously there.

Context relevant to the application includes:

- The small area proposed for the clearing (<1 ha).
- Outside any Environmentally Sensitive Areas (ESAs).
- The previous disturbance of this area and recent colonisation of vegetation.
- The large tracts of similar habitat to the north are relatively undisturbed.
- No conservation significant species of flora were identified in the field survey (Natural Area, 2025).
- The two seasonal priority flora (P3) that could potentially occur in this area are widely distributed, poorly surveyed and these works would be unlikely to change their conservation status.
- 33% of the species identified in the flora survey were non-native species (Natural Area, 2025).

Specify what the final land use will be after clearing

It will be rehabilitated and land use will remain as unallocated crown land

5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)

Mechanical clearing

5.5 Timeframe

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)

Start date: 1 April 2026

End da	ate: 30 November 2026

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

5.6 Pre-application scoping

Historic clearing of native vegetation in the Swan Coastal Plain and Avon Wheatbelt Interim Biogeographic Regionalisation for Australia (IBRA) bioregions has been extensive.

DWER/DEMIRS strongly recommends a pre-application meeting if you propose to clear native vegetation within these bioregions.

	X Yes – complete section below ☐ I have had a pre-application meeting with DWER/DEMIRS	
	Insert date of meeting and officer name(s):	
Do you propose to clear native vegetation within the Swan Coastal	☐ I have contacted DWER/DEMIRS in relation to a pre-application meeting and been advised that a meeting is unnecessary in this case.	
Plain or Avon Wheatbelt bioregions?	Insert date of conversation and officer name(s):	
	X I have not had a pre-application meeting with DWER/DEMIRS. I understand that this may increase the likelihood of requests for further information and/or delays in assessment.	
clear native vegetation within the Swan Coastal Plain or Avon Wheatbelt	officer name(s): □ I have contacted DWER/DEMIRS in relation to a p meeting and been advised that a meeting is unnecess case. Insert date of conversation and officer name(s): X I have not had a pre-application meeting with DWER understand that this may increase the likelihood of recommendation.	

Part 6 – Mitigation hierarchy

6.1 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider? (Attach design drawings where applicable)
- What changes, if any, did you make to the location or amount of clearing to reduce the

impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, DWER/DEMIRS will ask you to do so during the validation of this application. Offsets will only be considered by DWER/DEMIRS as a last resort, once avoidance and minimisation measures have been clearly demonstrated.

Provide the avoidance details (e.g. retention of vegetation on property)	The clearing will not encroach into the Class A Reserve and the strip of vegetation closest to the beach will be retained. The area proposed for the laydown was previously disturbed when the marina was constructed or was bare beach sand prior to the boat harbour construction. The laydown area was selected to avoid impacting on vegetation that has not previously been significantly disturbed. The footprint of the laydown area has been kept to a minimum (<1 ha) to allow for the movement of equipment in and out as well as the storage of materials. Large tracts of coastal vegetation occur immediately to the north. This
	vegetation association (1026) is described as scrub-heath thicket. Statewide this vegetation association (1026) in the Guilderton system has 93.84 % remaining within the Swan Coastal Plain IBRA sub region (SWA02) and 92.83 % is remaining in the Shire of Dandaragan (Government of Western Australia, 2019).
Provide the mitigation details (e.g. management of weed spread, rehabilitation)	Mitigation measures will be implemented during construction and rehabilitation to avoid site erosion and sand drift. The laydown area is planned to be rehabilitated to a vegetation condition of good or higher after the completion of work. A revegetation plan will be prepared to ensure weed control, site stabilisation, and a site-specific planting list.

6.2 Offsets

Do you want to submit a clearing offset proposal with your form?	☐ Yes ☒ No
If 'Yes' – please complete and attach Appendix A of the <u>Clearing</u> of native vegetation offsets procedure guideline as a supporting document for your form.	☐ Appendix A attached

Part 7 – Surveys for assessments (IBSA and IMSA)

Do you want to submit marine or biodiversity surveys in support of your form?	
---	--

7.1 Biodiversity surveys

If you want to submit any biodiversity surveys to support this form, you must follow the Environmental Protection Authority's (EPA) <u>Instructions for the preparation of data packages for the Index of Biodiversity Surveys for Assessments</u> (IBSA). If you do not meet the IBSA requirements, DWER/DEMIRS will decline/return your form.

Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a

biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER/DEMIRS. Please note DWER/DEMIRS will suspend the assessment timeframes for your application until you provide the IBSA number(s).

Have you submitted all the biodiversity surveys that support this form to the Index of Biodiversity Surveys for Assessment?	☑ Yes☐ Not applicable
Provide an IBSA number (preferred) or a submission number(s)	IBSASUB-20250918- EFC49025

7.2 Marine surveys

If you want to submit any marine surveys to support this form, you must follow the EPA's *Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments* (IMSA). If you do not meet the IMSA requirements, DWER/DEMIRS will decline/return your form.

Have you prepared all the marine surveys that support this form in accordance with the EPA's <i>Instructions for the preparation of data</i>	□ Yes

Part 8 – Assessment bilateral agreement

The native vegetation clearing processes under Part V of the EP Act have been accredited by the Commonwealth of Australia under the EPBC Act and so can be assessed under an assessment bilateral agreement.

To be assessed this way, the proposed clearing action must have been referred to the Commonwealth under the EPBC Act and deemed a '**controlled action**' before you submit this form. DWER/DEMIRS will decline to deal with your application without the proposed clearing first being deemed a controlled action.

For further information, see DWER's guidance on the assessment bilateral agreement.

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process, such as the assessment bilateral agreement or accredited assessment?	☐ Yes ☑ No – skip to Part 9
Is your proposed clearing a controlled action?	□ Yes
If 'Yes', please make sure you have entered all the mandatory details in the Annex C7 form	EPBC number:
	☐ Annex C7 form attached
	☐ No (DWER/DEMIRS cannot assess the

	application under an EPBC Act Accredited Process)
List the controlling provisions identified in the notification of the controlled action decision	

Part 9 – Other approvals

9.1 Environmental impact assessment (Part IV of the EP Act)

Clearing may be referred to the EPA if it is considered to be part of a 'significant proposal', as defined by section 37B(1) of the EP Act, or will likely to be part of a larger development. An example is when the clearing is for a road to a future mine.

Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if implemented, to have a significant effect on the environment". If a decision-making authority (e.g. DWER/DEMIRS) considers the proposal in this form is likely to constitute a 'significant proposal', under section 38(5) of the EP Act they must refer the proposal to the EPA under Part IV, if such a referral has not already been made.

Has the proposed clearing or any related matter been referred to	☐ Yes Enter details:		
the EPA?			
	⋈ No – complete question below.		
If 'No' – do you intend to refer the	☐ Yes – intend to refer (proposal is a 'significant proposal')		
proposal to the EPA?	☐ Yes – intend to refer (proposal will require a section 45C amendment to the current Ministerial Statement)		
	□ No – a current valid Ministerial Statement applies		
	Enter Ministerial Statement number:		
	⊠ No – not a significant proposal		

9.2 Other approvals – works approval, licence or registration (Part V Division 3 of the EP Act)

Have you applied or do you intend to apply for a works approval, licence, registration or an	□ Yes	
amendment to any of the above, under Part V Division 3 of the EP Act?	Application reference:	
It is an offence to perform any action that would		
cause a premises to become a prescribed premises of a type listed in Schedule 1 of the	☐ No – a valid works approval applies	
Environmental Protection Regulations 1987, unless that action is done in accordance with a	☐ No – a valid licence applies	
works approval, licence or registration. For further guidance, see DWER's <i>Procedure: Prescribed</i>	☐ No – a valid registration applies	

<u>premises works approvals and licences</u> and <u>Guideline: Industry regulation guide to licensing</u> .	No − not required	
9.3 Water licences and permits (Rights in Water and Irrigation Act 1914)		
Have you applied or do you intend to apply for:	□ Yes	
 a licence or amendment to a licence to take 		

 a licence or amendment to a licence to take water (surface water or groundwater)

 a licence or amendment to a licence to construct wells (including bores and soaks), or

 a permit or amendment to a permit to interfere with the bed and banks of a watercourse?

For further guidance on water licences and permits under the *Rights in Water and Irrigation Act 1914*, see DWER's *Procedure: Water licences and permits*.

□ Yes	
☐ No – a current valid licence applies	
Licence number:	

9.4 Planning and other approvals

Has the proposal obtained all relevant planning approvals and/or have you applied for all relevant planning approvals (e.g. Development	□ Yes		
	Enter details:		
Approvals (e.g. Bevelopment Approval, Extractive Industry Licence, etc.)?		□ No – planning	g approval is not required
		Enter details:	
ı			

Part 10 - Prescribed fee

10.1 Referral or application?

There are no prescribed fees for referrals.	⊠ Referral – skip to Part 11
Is this form a referral of proposed clearing or an application for a new permit?	☐ Application – continue and complete Part 10

10.2 Calculating the application fees

You must pay the prescribed fee at the time you submit the application form. DWER/DEMIRS will decline to deal with your application if you do not pay the prescribed fee.

Please calculate the prescribed fee using the online <u>clearing permit fee calculator tool</u>.

For further guidance, see DWER's online clearing fees frequently asked questions.
