

## CLEARING REFERRAL DETERMINATION NOTICE

### Referral details

Referral number:	REF 11297/1
Referral submitted by:	City of Mandurah
Purpose of proposed clearing:	Enhancing turf growth
Location of proposed clearing:	Lot 104 on Deposited Plan 61694
Locality:	Halls Head
Clearing size:	One (1) tree

### Referral determination:

The Department of Water and Environmental Regulation has considered the above referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that a clearing permit **is required** for the proposed clearing of the area cross-hatched orange on the attached map detailed in Schedule 1 (the referral area).

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- there are known or likely significant environmental values identified within the referral area,
- there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.
