

A photograph of a natural landscape. The foreground is filled with tall, dry, golden-brown grass. To the left, there are patches of green, leafy plants. In the background, a dense line of trees and shrubs is visible, including several thin, light-colored saplings. A black text box with white text is overlaid on the lower part of the image. A small wooden stake with a yellow ribbon is visible on the right side of the grassy area.

**Start of the crossover. Mostly grass with a few
saplings/very small peppermint trees.**

First tree that needs removing.

Same tree from the other side.

This tree can stay.

Our revised plan (approved by the City of Albany) means that only the tree on the right in this image needs removing.

Second tree that needs removing.

Our revised plan (aproved by the City of Albany) means that this tree can stay and the crossover turnaround can use the existing sand track

Second tree from a different angle.

Much of the area is grass or very low vegetation.
