

## CLEARING REFERRAL DETERMINATION NOTICE

### Referral details

Referral number:	REF 11383/1
Referral submitted by:	Spring Park Pty Ltd and CTD Generation Pty Ltd
Purpose of proposed clearing:	Fire hazard reduction
Location of proposed clearing:	Lot 40 on Diagram 32446
Locality:	Kwinana
Clearing size:	0.34 hectares of native vegetation

### Referral determination:

The Department of Water and Environmental Regulation has considered the above referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that a clearing permit **is required** for the proposed clearing of the areas cross-hatched orange on the attached map detailed in Schedule 1 (the referral area).

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

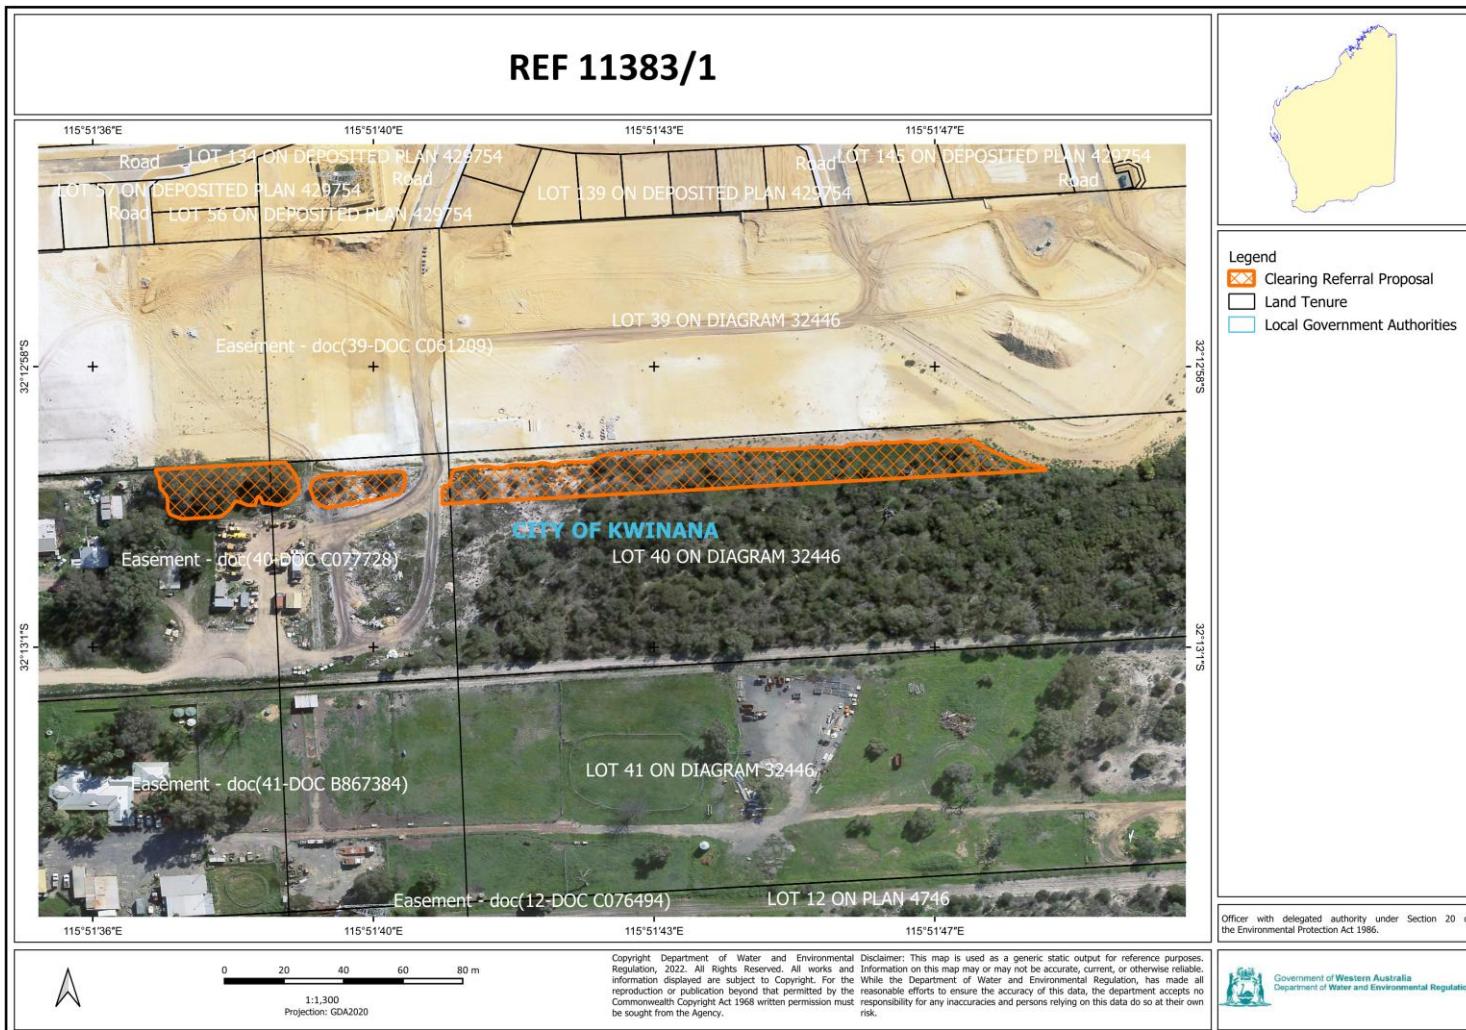

- there are known or likely significant environmental values identified within the referral area; and
- there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.

Caitlin Conway  
MANAGER  
NATIVE VEGETATION REGULATION

*Officer delegated under section 20 of  
the Environmental Protection Act 1986*

30 January 2026
