

CLEARING REFERRAL DETERMINATION NOTICE

Referral details

Referral number:	REF 11470/1
Referral submitted by:	Town of Victoria Park
Purpose of proposed clearing:	Footings for two universal access ramps and egress point for emergency service vehicles
Location of proposed clearing:	Lot 705 on Deposited Plan 230206 (Crown Reserve 3694)
Locality:	Kensington
Clearing size:	0.5 hectares of native vegetation

Referral determination:

The Department of Water and Environmental Regulation has considered the above referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that a clearing permit **is required** for the proposed clearing of the areas cross-hatched orange on the attached map detailed in Schedule 1 (the referral area).

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- the referral area is not small relative to the total remaining vegetation within the region in which the area is situated;
- there are known or likely significant environmental values identified within the referral area; and
- there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.
