

Tree Species Identification Record

1. Administrative Details

Lot Number/Location:	Lot 698, 401 Port Drive, Minyirr, WA 6725
Date of Survey:	05/03/2026
Survey Area GPS Coordinates (GDA2020):	18°00'09.14"S 122°12'30.41"E

2. Photographs of Tree Specimen(s)

Tree specimen photos have been included in file 'Tree Species – Lot 698', submitted along with this species identification record and the NVCP referral application.

3. Species Identification Table

Botanical details and key distinguishing characteristics for each tree specimen have been included below along with GPS coordinates.

Tree Ref. No.	Scientific Name	Common Name	GPS Coordinates (GDA2020)	Conservation Code (Florabase)	Key Identifying Characteristics
Tree 1	Melaleuca leucadendra	Weeping Paperbark	[18°00'08.89"S, 122°12'31.15"E]	Not Threatened	Thick white, papery bark, weeping foliage. No flowers - outside of flowering (Mar-Oct)
Tree 2	Casuarina equisetifolia	Coastal She-Oak	[18°00'08.82"S, 122°12'31.00"E]	Not Threatened - *Alien to WA	Needle like branchlets. No flowers, outside of season.
Tree 3	Corymbia greeniana	Pindan Bloodwood	[18°00'09.03"S, 122°12'30.81"E]	Not Threatened	6-15m high, white trunk with brown, tessellated bark. No flowers, outside of flowering season.
Tree 4	Acacia holosericea	Candelabra Wattle	[18°00'09.07"S, 122°12'30.80"E]	Not Threatened	2 meters high, no flowers as outside of season.
Tree 5	Corymbia greeniana	Pindan Bloodwood	[18°00'09.03"S, 122°12'30.36"E]	" "	" "
Tree 6	Corymbia greeniana	Pindan Bloodwood	[18°00'09.19"S, 122°12'30.42 "E]	" "	" "
Tree 7	Corymbia greeniana	Pindan Bloodwood	[18°00'09.36"S 122°12'30.45"E]	" "	" "
Tree 8	Ficus aculeata	Sandpaper Fig	[18°00'09.27"S 122°12'30.63"E]	Not Threatened	Dark brown bark, less than 15m in height. Rough textured leaves and small fruit.
Tree 9	Ficus aculeata	Sandpaper Fig	[18°00'09.37"S 122°12'30.61"E]	" "	" "
