### 5.2 Size

- If you propose to clear a patch(es) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero). For example, “clearing of 5 hectares”.
- If you propose to clear only individual trees (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees. For example, “clearing of 10 trees”. If any shrubs, grasses, and/or groundcover plants **may** be damaged in the clearing process, enter the total area only.
- If you propose to clear an area of native vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10-hectare footprint. This option is only available for purpose permit applications.
- Enter values for **both** number of trees and the size of the area **only if** you are clearing individual trees in one area **and** a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = 10,000 m <sup>2</sup>	Area of circle = 3.14 x radius <sup>2</sup>
1 acre = 0.4 hectares/4,000 m <sup>2</sup>	Area of a rectangle = length x width
1 tree = 0.01 hectares/100 m <sup>2</sup>	Area of a triangle = ½ length x perpendicular height

Total area of clearing proposed (hectares)	
Footprint of clearing (hectares) (purpose permit only)	
Number of individual trees to be cleared	<b>3</b>

Note: Calculate the area of a tree based on the area encompassed by the tree’s drip line; that being the outermost circumference of the tree’s canopy.

### 5.3 Purpose

<p>Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.).</p> <p>If applicable, provide any additional project overview or explain in detail the activities on the property (e.g. provide context of work proposed and describe how clearing will contribute to overall work activities onsite etc.).</p>	<p>The road shoulders will be partially sealed as part of a \$2.9M safety improvement project along Henty Road, funded under the Regional Road Safety Program – Local Government (RRSP-LG), which is a State and Federal funded road safety improvement program.</p> <p>These three trees are within 0.5m of the final seal edge in unposted speed limit. The Road safety Audit, which was carried out in October 2025, recommended the removal of these three trees to reduce risk of vehicles colliding with them.</p> <p>Refer Item 3.2 (Finding – Non-Fragible objects near the traffic lane) of the Corrective Action Report – Copy attached</p>
<p>Specify what the final land use will be after clearing</p>	<p>Road reserve</p>

### 5.4 Method

<p>Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)</p>	<p>Tree lopper</p>
--	--------------------

### 5.5 Timeframe

<p>Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)</p>	<p>Start date: 1/9/2026 End date: 1/11/2026</p>
--	---

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

### 5.6 Pre-application scoping

Historic clearing of native vegetation in the Swan Coastal Plain and Avon Wheatbelt [Interim Biogeographic Regionalisation for Australia](#) (IBRA) bioregions has been extensive. DWER/DMPE strongly recommends a pre-application meeting if you propose to clear native vegetation within these bioregions.

<p>Do you propose to clear native vegetation within the Swan Coastal Plain or Avon Wheatbelt bioregions?</p>	<p><input type="checkbox"/> Yes – complete section below</p> <p><input type="checkbox"/> I have had a pre-application meeting with DWER/DMPE</p> <table border="1" data-bbox="488 1734 1377 1877"> <tr> <td data-bbox="488 1734 727 1877"> <p>Insert date of meeting and officer name(s):</p> </td> <td data-bbox="727 1734 1377 1877"></td> </tr> </table> <p><input type="checkbox"/> I have contacted DWER/DMPE in relation to a pre-application</p>	<p>Insert date of meeting and officer name(s):</p>

	meeting and been advised that a meeting is unnecessary in this case.	
	Insert date of conversation and officer name(s):	
<input type="checkbox"/> I have not had a pre-application meeting with DWER/DMPE. I understand that this may increase the likelihood of requests for further information and/or delays in assessment.		
<input type="checkbox"/> No – proceed to next question.		

## Part 6 – Mitigation hierarchy

### 6.1 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing – e.g. engineering solutions – did you consider? (Attach design drawings where applicable)
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, DWER/DMPE will ask you to do so during the validation of this application. Offsets will only be considered by DWER/DMPE as a last resort, once avoidance and minimisation measures have been clearly demonstrated.

Provide the avoidance details (e.g. retention of vegetation on property)	<p>The Shire previously designed road widening works in 2021 on two portions on Henty Road, between SLK 2.5 - 5.5 and SLK 8.0 - 10.7, to improve safety of the road in response to vehicle crashes. The design cross section was for two 3.5m lanes and 0.3m partially sealed shoulders. The construction of this project would have required the removal of a total of 46 trees. These drawings are not attached to this Referral, however, I am happy to forward these to the Department for review upon request.</p> <p>Since that time, the Shire was able to reduce the scope of works to maintaining existing vehicles lanes at 3.1m and only partial sealing of the shoulders, with addition of the installation of audio tactile centreline and edgelines. The result of this alternative approach is that there are only three trees that currently present a major hazard to road users, which need to be removed. Apart from these three trees, there are no other impacts on native vegetation.</p>
--	---

	This demonstrates the Shire's commitment to reducing the impact of road safety improvements works on the environment by exploring alternative approaches.
Provide the mitigation details (e.g. management of weed spread, rehabilitation)

If 'Yes' – please provide the ISA number(s) and/or any relevant existing IBSA/IMSA numbers	

## Part 8 – Assessment bilateral agreement

The native vegetation clearing processes under Part V of the EP Act have been accredited by the Commonwealth of Australia under the EPBC Act and so can be assessed under an assessment bilateral agreement.

To be assessed this way, the proposed clearing action must have been referred to the Commonwealth under the EPBC Act and deemed a '**controlled action**' before you submit this form. DWER/DMPE will decline to deal with your application without the proposed clearing first being deemed a controlled action.

For further information, see DWER's [guidance on the assessment bilateral agreement](#).

## Part 9 – Other approvals

### 9.1 Environmental impact assessment (Part IV of the EP Act)

Clearing may be referred to the EPA if it is considered to be part of a 'significant proposal', as defined by section 37B(1) of the EP Act, or will likely to be part of a larger development. An example is when the clearing is for a road to a future mine.

Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if implemented, to have a significant effect on the environment". If a decision-making authority (e.g. DWER/DMPE) considers the proposal in this form is likely to constitute a 'significant proposal', under section 38(5) of the EP Act they must refer the proposal to the EPA under Part IV, if such a referral has not already been made.
