| Size of proposed clearing: | 0.026 ha |
| Expiration date | 16 November 2023 |

Referral determination

The Department of Water and Environmental Regulation has considered this referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that a clearing permit is not required for the proposed clearing of the areas outlined green on the attached map in Schedule 1.

The reason for this determination is that the proposed clearing satisfies all of the criteria specified in section 51DA(4) of the EP Act. Specifically:

- the area proposed to be cleared (the area) is small relative to the total remaining native vegetation —
 - within the region in which the area is situated, or
 - of the ecological community of which the vegetation proposed to be cleared forms part, and
- there are no known or likely significant environmental values identified within the area, and
- the state of scientific knowledge about vegetation within the region in which the area is situated is adequate, and
- there are no issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.

This determination is valid only until the expiration date specified above.

Simon Weighell
SENIOR ENVIRONMENTAL OFFICER
NATIVE VEGETATION REGULATION

Officer delegated under section 20
of the *Environmental Protection Act 1986*

16 November 2021

Schedule 1: Map

The area that does not require a clearing permit is shown in the map below.
