Referral details

REF number:	REF 9464/1
Referral submitted by:	Clune Properties WA Pty Ltd
Purpose of proposed clearing:	Building of a bund
Total area applied to clear	0.26 hectares
Location of proposed clearing:	Lot 9156 on Deposited Plan 201683

Referral determination:

The Department of Water and Environmental Regulation has considered this referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that:

- a clearing permit is required for the proposed clearing of the area(s) cross-hatched orange on the attached map detailed in Schedule 1.

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. For example, it is considered that there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.
