

## CLEARING REFERRAL DETERMINATION NOTICE

### Referral details

REF number:	REF 9465/1
Referral submitted by:	Main Roads Western Australia
Purpose of proposed clearing:	Improved safety of Marble Bar Road
Size of proposed clearing	500 hectares
Location of proposed clearing:	Within various road reserves, leases, crown reserves and lands and unallocated crown lands, within the localities of Nullagine and Newman

### Referral determination:

The Department of Water and Environmental Regulation has considered this referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that:

- a clearing permit is required for the proposed clearing of the area hatched orange on the attached map detailed in Schedule 1.

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. For example, it is considered that there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.

Simon Weighell  
SENIOR ENVIRONMENTAL OFFICER  
NATIVE VEGETATION REGULATION

1 November 2021

an officer delegated under section 20 of  
the *Environmental Protection Act 1986*

# Schedule 1: Map

## Map

The area that requires a clearing permit is shown in the map below.
