Referral submitted by:	David Charles
Purpose of proposed clearing:	Redevelopment of site infrastructure for tourism and educational purposes
Location of proposed clearing:	Lot 4129 on Plan 26832 (Crown reserve R 17070), Penguin Island
Application size	0.02 ha
Expiration date	09 February 2024

Referral determination

The Department of Water and Environmental Regulation has considered this referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that:

a clearing permit is not required for the proposed clearing of the area outlined green on the attached map detailed in Schedule 1.

The reason for this determination is that the proposed clearing satisfies all of the criteria specified in section 51DA(4) of the EP Act. Specifically:

- the vegetation proposed to be impacted is not considered native vegetation and is therefore not governed or regulated under the Environmental Protection Act 1986.

Please note that this determination is valid only until the expiration date specified above. After this date, you will need to submit a new clearing referral or apply for a clearing permit before undertaking further clearing of native vegetation.
