

CLEARING REFERRAL DETERMINATION NOTICE

Referral details

REF number:	REF 9567/1
Referral submitted by:	Kevin Rudd
Purpose of proposed clearing:	Power connection
Location of proposed clearing:	Lot 64 on Plan 22056 Smith Road Reserve (PIN11720334)
Application size	0.01 ha
Expiration date	31 January 2024

Referral determination

The Department of Water and Environmental Regulation has considered this referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that:

a clearing permit is not required for the proposed clearing of the area outlined green on the attached map detailed in Schedule 1.

The reason for this determination is that the proposed clearing satisfies all of the criteria specified in section 51DA(4) of the EP Act. Specifically:

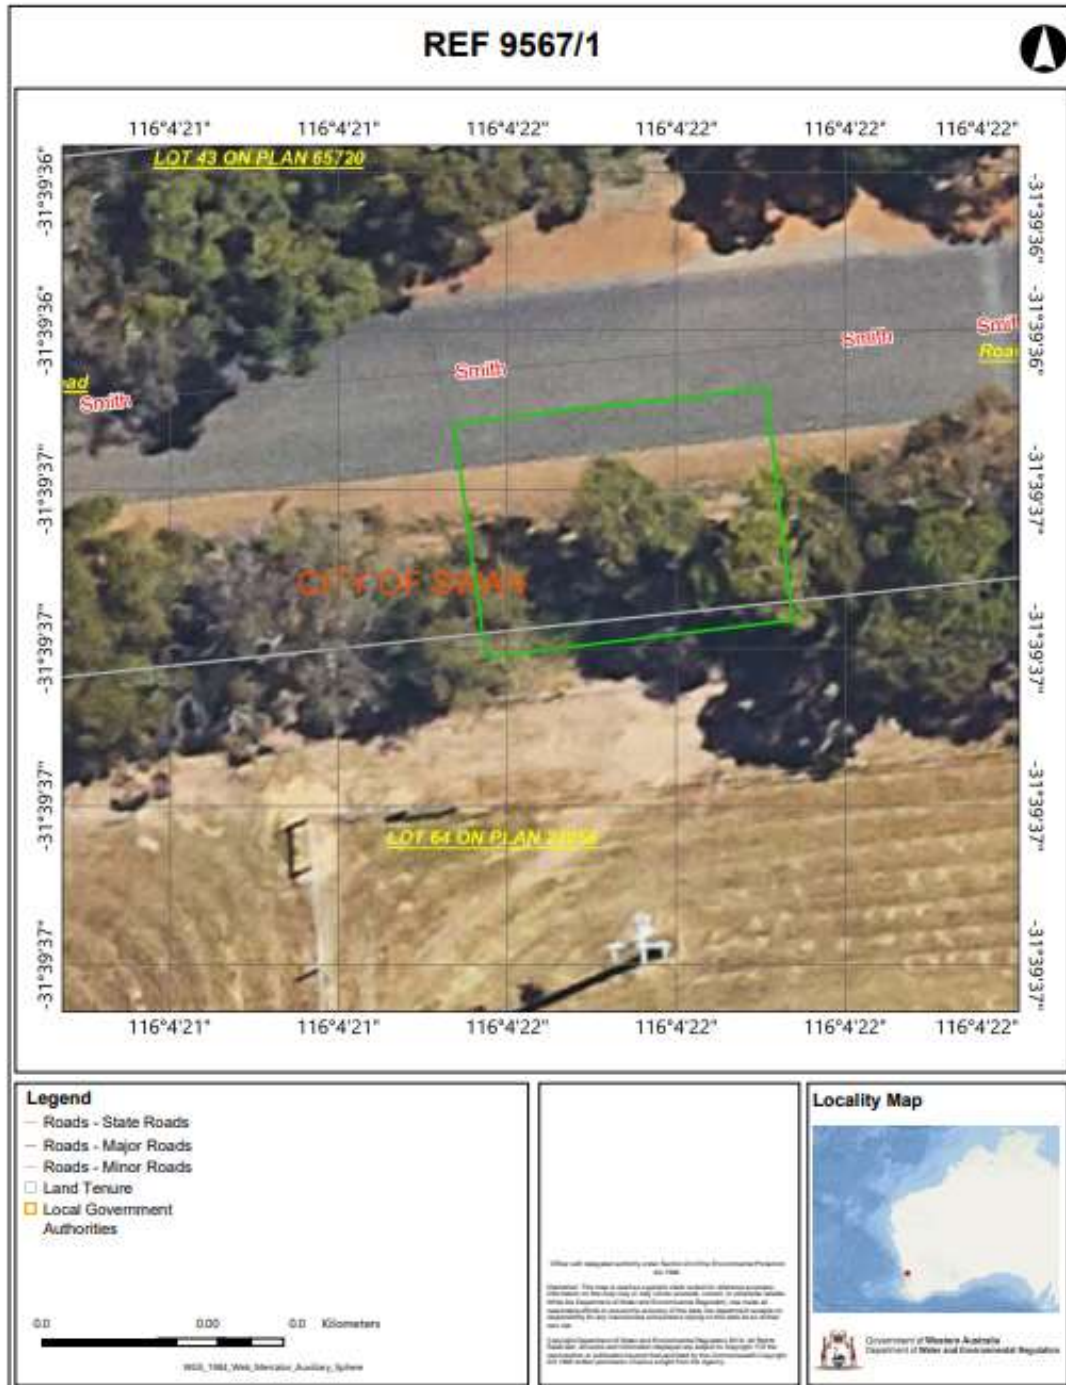

- there are no known or likely significant environmental values identified within the proposed area to clear, and
- there are no issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.

Please note that this determination is valid only until the expiration date specified above. After this date, you will need to submit a new clearing referral or apply for a clearing permit before undertaking further clearing of native vegetation.

Schedule 1: Map

Map

The area that does not require a clearing permit is shown in the map below.
