

## CLEARING REFERRAL DETERMINATION NOTICE

### Referral details

REF number:	REF 9607/1
Referral submitted by:	Mr Damien Burton & Mrs Sonja Burton
Purpose of proposed clearing:	Dam construction for hydro power scheme for Walpole area and farm water supply
Location of proposed clearing:	Lot 1762 on Deposited Plan 203415, Hazelvale

### Referral determination:

The Department of Water and Environmental Regulation has considered this referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that:

- a clearing permit is required for the proposed clearing of the area cross-hatched yellow on the attached map detailed in Schedule 1.

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- there are known or likely significant environmental values identified within the area
- there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment
