

CLEARING REFERRAL DETERMINATION NOTICE

Referral details

REF number:	REF 9756/1
Referral submitted by:	Cooperative Bulk Handling Limited
Purpose of proposed clearing:	Road upgrades
Location of proposed clearing:	Wagin – Dumbleyung Road Reserve (PIN 11407783)
Application size:	Two (2) native trees
Expiration date:	17 June 2024

Referral determination

The Department of Water and Environmental Regulation has considered this referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that:

a clearing permit is not required for the proposed clearing of the area cross-hatched green on the attached map detailed in Schedule 1.

The reason for this determination is that the proposed clearing satisfies all of the criteria specified in section 51DA(4) of the EP Act. Specifically:

- the area proposed to be cleared (the area) is small relative to the total remaining native vegetation
- there are no known or likely significant environmental values identified within the area
- the state of scientific knowledge about native vegetation within the region, in which the area is situated, is adequate
- there are no issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment; and
- the trees proposed to be cleared are considered to be planted.

Please note that this determination is valid only until the expiration date specified above. After this date, you will need to submit a new clearing referral or apply for a clearing permit before undertaking further clearing of native vegetation.
