

CLEARING REFERRAL DETERMINATION NOTICE

Referral details

REF number:	REF 9873/1
Referral submitted by:	Mrs Ann Smith
Purpose of proposed clearing:	Western Power underground power supply connection
Location of proposed clearing:	Coronation Road reserve (PIN 11602707) and Lot 11 on Deposited Plan 232807, Waroona

Referral determination:

The Department of Water and Environmental Regulation has considered this referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that:

- a clearing permit is required for the proposed clearing of the area(s) cross-hatched orange on the attached map detailed in Schedule 1.

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- the area proposed to be cleared (the area) is **not** small relative to the total remaining vegetation —
 - within the region in which the area is situated, and/or
 - of the ecological community of which the vegetation proposed to be cleared forms part, and/or
- there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.
