

CLEARING REFERRAL DETERMINATION NOTICE

Referral details

REF number:	REF 9956/1
Referral submitted by:	CPS Technology & Infrastructure
Purpose of proposed clearing:	Installation of power supply to proposed telecommunications facility
Location of proposed clearing:	Lot 500 on Plan 18005, Badgingarra Watheroo Road reserve (PIN 11675072), Badgingarra

Referral determination:

The Department of Water and Environmental Regulation has considered this referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that a clearing permit **is required** for the proposed clearing of the area(s) cross-hatched orange on the attached map detailed in Schedule 1.

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- the area proposed to be cleared (the area) is **not** small relative to the total remaining vegetation —
 - within the region in which the area is situated
- there are known or likely significant environmental values identified within the area
- the state of scientific knowledge about vegetation within the region in which the area is situated is **not** adequate; and
- there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.
