

CLEARING REFERRAL DETERMINATION NOTICE

Referral details

REF number:	REF 9968/1
Referral submitted by:	Western Australian Department of Transport
Purpose of proposed clearing:	Onshore disposal of dredged material and land reclamation for the construction and development of public facilities
Proposed clearing size:	5.56 hectares
Location of proposed clearing:	Lot 1337 on Deposited Plan 91032, South Carnarvon

Referral determination:

The Department of Water and Environmental Regulation has considered this referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that:

- a clearing permit is required for the proposed clearing of the area cross-hatched orange on the attached map detailed in Schedule 1.

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- there are known or likely significant environmental values identified within the area; and
- there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.
