Department of Mines, Industry Regulation and Safety

# Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (including maps etc.). We will return / decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the <u>Procedure: Native vegetation clearing permits</u>.

# Part 1 – Form type

Select your form type.  NOTE: Where appropriate in this form, and unless stated otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer' respectively.  Referral of proposed clearing (section 51DA of the EP Ac Application for an area permit (section 51E of the EP Ac Application for a purpose permit (secti

# Part 2 – Applicant details

#### 2.1 Applicant name

For area permits:	☐ Applying as a	n individual – complete	the following:	
If granted, the name(s) of (all)	Title	☐ Mr ☐ Mrs ☐ Ms	□ Other:	
landowner(s) will be listed as	Name(s)			
or 'permit' holders' on the permit.  ✓ Applying as a body corporate or other entifollowing:			r entity formed	at law – complete the
For purpose permits:	Name	CILF H1 Pty Ltd as true	stee for Hazelm	nere 1 Trust
If granted, the name(s) of (all)	Australian Com	ipany Number (ACN)	651 334 208	
applicant(s) will go on the permit.		government entity (e.g. nority, or other statutory		epartment, local
	Name			

### 2.2 Applicant contact details

Provide the contact details for the above (primary contact).

Title			
First name			
Last name			
Position			
Company name			
Contact phone number (1)			
Email address			

# 2.2 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

Address line 1		
Address line 2		
Suburb		
State		

# 2.3 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

Address line 1		
Address line 2		
Suburb		
State		
Contact phone number (1)		

## 2.4 Electronic correspondence consent

Both the Department of Water and Environmental Regulation (DWER) and Department of Mines, Industry Regulation and Safety (DMIRS) prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

I consent that all written correspondence between myself (the applicant) and DWER/DMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.	⊠ Yes	□ No
---	-------	------

### 2.5 Contact details for enquiries

If different from the applicant's contact details, enter the contact details of a person with whom DWER or DMIRS should liaise with (e.g. a consultant).

Same as applicant's contact details	□ Yes	⊠ No
f 'No' – complete the following:		
Contact name		
Position (if applicable)		

Business or postal address line 1

Company name (if applicable)

Contact phone number (1)

Business or postal address line 2

State

Suburb

Email address

# Part 3 - Land details

- You must accurately describe the location of the land where your clearing is proposed.
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

## 3.1 Property details

I have a large number of properties and have given the relevant details in an attached supporting document.	☐ Yes – skip to Part 4	⊠ No
---	------------------------	------

#### If 'No' - complete the following:

Land description  Provide the following details, as applicable, for all properties:  - volume and folio number - lot or location number(s) - crown lease or reserve number - pastoral lease number - mining tenement number	Register Number – 1499/P251270 Lot – 1499 Volume – 1087 Folio – 357		
Street address – Line 1	71 Stirling Crescent		
Street address – Line 2	High Wycombe		
Suburb			
State	WA	Postcode	6057
Local government area(s)	City of Kalamunda		
Land zoning	MRS: Urban  LPS: Light industry (Local Planning Scheme No.3 City (Kalamunda)		Scheme No.3 City of

# Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

## Proof of ownership may include:

- a certificate of title (that is less than 6 months old)
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following
☐ I am the landowner	☐ Attach proof of ownership
☑ I am lodging a form on behalf of the landowner (e.g. a consultant)	⊠ Attach proof of ownership
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach proof of ownership ☐ Complete and attach an 'Acting on behalf and jointly responsible' letter
☐ I am likely to become the landowner	☐ Attach the Certificate of Title ☐ Attach evidence of the pending transfer of ownership and/or contract of sale ('offer and acceptance')
☐ I will undertake the clearing activities with the landowner's authority and will be the permit holder	□ Attach proof of ownership □ Complete and attach an 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)
☐ A person with multiple land parcels	□ Attach proof of ownership □ Complete and attach 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)

## Part 5 - Proposed clearing

#### 5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: We will decline / return forms (as applicable) if you do not provide sufficient information for this question.

☐ An ESRI shapefile with the following properties (preferred)

- Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 1994/2020 (geographic latitude / longitude)
- Datum: GDA 1994 / GDA 2020 (please specify which was provided)

⊠ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

#### Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an *Environment Protection and Biodiversity* Conservation Act 1999 (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

#### 5.2 Size

- If you propose to clear a patch(s) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero).
- If you propose to remove only individual trees from the area(s) (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees (and mark total area as estimated hectares).
  - Note: If any shrubs, grasses, and/or groundcover plants MAY be damaged in the clearing process, add this to the total area.
- If you propose to clear an area of vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10 hectare footprint. This option is only available for <u>purpose permit</u> applications.
- Enter values for BOTH number of trees and the size of the area if you are clearing individual trees in one area AND a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare =  $10,000 \text{ m}^2$  Area of circle = 3.14 x radius<sup>2</sup> 1 acre = 0.4 hectares /  $4,000 \text{ m}^2$  Area of a rectangle = length x width 1 tree = 0.01 hectares /  $100 \text{ m}^2$  Area of a triangle =  $\frac{1}{2}$  length x perpendicular height

Total area of clearing proposed (hectares)	0.88
Footprint of clearing (hectares) (purpose permit only)	N/A
Number of individual trees to be removed	0

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

#### 5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.)	Given the size and geometry of Lot 1499 and the scattered native vegetation across the lot, to enable the development of the lot for light industrial purposes and to provide the necessary facilities, the clearing of 0.88 ha of native vegetation is required. The proposed clearing is ultimately required to facilitate the earthworks, building and road/hardstand construction within the lot which cannot be undertaken without the removal of the vegetation.	
Specify what the final land use will be after clearing	Ultimately the site will support a light industrial/commercial land use, and development of the site include the construction of two warehouses, which will include the following features:	
	<ul> <li>Two warehouses with attached main offices, awning areas, pump house, loading docks, workshops and amenities</li> <li>Various carparking locations</li> </ul>	
	Dedicated hardstand areas for truck access and egress and a fire truck driveway	
	Sprinkler water tank	
	Multiple landscape and drainage areas	
	Rehabilitated drainage area.	

#### **5.4 Method**

Proposed method of clearing	Mechanical clearing	
(i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)		

#### 5.5 Timeframe

Period within which you propose to do the clearing	Start date: 01/12/2022
(e.g. 1/7/2022 to 30/8/2024)	End date: 30/12/2023

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

#### 5.6 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider?
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, we will ask you to do so during the validation of this form.

Provide the avoidance and mitigation details

Lot 1499 Stirling Crescent is considered an appropriate location for light industrial development. Lot 1499 is directly abutting the Hazelmere Enterprise Area Structure Plan area (endorsed by the Western Australia Planning Commission in 2011), which accommodates for predominantly general and light industrial development. Additionally, Lot 1499 is situated adjacent to the Airport North Precinct, which is the center for global reaching businesses and leading edge smart technology industries and is located directly adjacent Adelaide Street, which is undergoing extensions and upgrades between Abernethy Road and Stirling Crescent to become a gateway road to the airport precinct.

The proponent has ensured that the least clearing of native vegetation possible would be undertaken to enable the development of Lot 1499 for light industrial purposes, which commenced with understanding the flora and vegetation conditions and values within the site. The existing native vegetation within the clearing referral area was determined to be in 'Degraded' condition and was predominantly historically cleared and presently comprises largely regrowth vegetation. No threatened or priority flora species were identified within the clearing referral area, nor in the broader vicinity. Furthermore, no threatened or priority ecological communities were identified, likely due to the degraded condition and severe historical disturbance within Lot 1499.

To avoid any unnecessary clearing of native vegetation, the north western portion of Lot 1499, which is not part of the proposed development within the lot, is not proposed to be cleared and will be avoided and hence does not form part of the clearing referral area or the broader site in which future development will occur.

As highlighted in the Native Vegetation Clearing Referral Letter accompanying this referral form, there are limited opportunities to avoid impacts to native vegetation within Lot 1499 due to the works necessary to progress the proposed facility and in addition no mitigation measures were deemed necessary as any environmental values were determined to be highly limited and not material and/or critical in providing habitat for significant flora and fauna species such as black cockatoos. Notwithstanding this, the proponent proposes a rehabilitation drainage area in the south eastern corner of Lot 1499, which will accommodate a buffer between the proposed development and an existing resource enhancement wetland to the south of Lot 1499. No clearing of native vegetation will be undertaken within this rehabilitation drainage area and revegetation using locally native plant species is proposed. Additionally, the proponent intends to accommodate landscape treatments within the broader extent of Lot 1499, which will include the planting of native trees and shrubs within carparks and along the lot boundary.

#### Part 6 - Offset

Do you want to submit a clearing offset proposal with your form?	□ Yes	⊠ No	
	1		

If 'Yes' – please complete and attach Appendix A of the <u>Clearing of native vegetation offsets procedure</u> guideline as a supporting document for your form.	☐ Appendi	x A attached		
Part 7 – Surveys for assessments (IBSA and IMSA	۸)			
Do you want to submit marine or biodiversity surveys in support of your form?	⊠ Yes □ N	No – skip to Part 8		
7.1 Biodiversity surveys				
If you want to submit any biodiversity surveys to support this form, you must follow the Environmental Protection Authority's (EPA) <u>Instructions for the preparation of data packages for the Index of Biodiversity Surveys for Assessments</u> (IBSA). If you do not meet the IBSA requirements, DWER/DMIRS (as applicable) may decline/return your form.				
Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER/DMIRS (as applicable). Please note DWER / DMIRS will suspend the assessment timeframes for your form until you provide the IBSA number(s).				
Have you submitted all the biodiversity surveys that support this form to the Index of Biodiversity Surveys for Assessment, available at <a href="mailto:ibsasubmissions.dwer.wa.gov.au">ibsasubmissions.dwer.wa.gov.au</a> ?		<ul><li>☑ Yes</li><li>☐ Not applicable</li></ul>		
Provide an IBSA number (preferred) or a submission number(s)		IBSA-2022-0400		
7.2 Marine surveys				
If you want to submit any marine surveys to support this form, you Instructions for the preparation of data packages for the Index of Assessments (IMSA). If you do not meet the IMSA requirements form.	Marine Surv	<u>reys for</u>		
Have you prepared all the marine surveys that support this form accordance with the EPA's <i>Instructions for the preparation of dapackages for the Index of Marine Surveys for Assessments?</i>		□ Yes ⊠ Not applicable		

## Part 8 – Assessment Bilateral Agreement

The native vegetation clearing processes under Part V of the EP Act have been accredited by the Commonwealth of Australia under the EPBC Act and so can be assessed under an assessment bilateral agreement.

To be assessed this way, the proposed clearing action must have been referred to the Commonwealth under the EPBC Act and deemed a 'controlled action' before you submit this form.

For further information, see <u>DWER's website guidance on the assessment bilateral agreement</u>.

Is your proposed clearing a controlled action?			⊠ No – skip to Part 9
If 'Yes' – complete the following:			
Please make sure you have entered all the mandatory details in the <u>Annex C7 form</u>	☐ Annex C7 form attached	i	
List the controlling provisions identified in the notification of the controlled action decision			
Part 9 – Other approvals			5
Which department are you subr	nitting this form to?		
If the clearing is for mineral and petroleum activities authorised under the <i>Mining Act 1978</i> , the various Petroleum Acts, and/or a State Agreement Act, select 'Department of Mines, Industry Regulation and Safety'.		<ul><li>□ Department of Mines, Industry Regulation and Safety</li><li>⊠ Department of Water and</li></ul>	
For all other clearing activities, select 'Department of Water and Environmental Regulation'.		Environmental Regulation	

## 9.1 Environmental impact assessment (Part IV of the EP Act)

Clearing may be referred to the EPA if it is considered to be part of a 'significant proposal', as defined by section 37B(1) of the EP Act, or will likely to be part of a larger development. An example is when the clearing is for a road to a future mine.

Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if implemented, to have a significant effect on the environment". If a decision-making authority (e.g. DWER or DMIRS) considers the proposal in this form is likely to constitute a 'significant proposal', under section 38(5) of the EP Act they must refer the proposal to the EPA or for assessment under Part IV, if such a referral has not already been made.

Has the proposed clearing or any	□ Yes			
related matter been referred to the EPA?	Enter details:			
	No − complete question b	pelow.		
If 'No' – do you intend to refer the proposal to the EPA?	refer the			
	⋈ No – not a significant prop	posal		
9.2 Other approvals – pre-application scoping (DWER forms only)				
Have you had any pre-application/ pre-referral/ scoping meetings with DWER about any planned applications?	□ Yes			
	Enter details:			
	⊠ No	**		
9.3 Other approvals – works approval, licence or registration (Part V Division 3 of the EP Act)				
works approval, licence, registration or an amendment to any of the above, under Part V Division 3 of the EP Act?  It is an offence to perform any action that would cause a premises to become a prescribed premises of a type listed in Schedule 1 of the Environmental Protection Regulations 1987, unless that action is done in accordance with a works approval, licence or registration. For further guidance, see DWER's <i>Procedure: Prescribed</i>		<ul> <li>☐ Yes</li> <li>Application reference:</li> <li>☐ No – a valid works approval applies</li> <li>☐ No – a valid licence applies</li> <li>☐ No – a valid registration applies</li> <li>☒ No – not required</li> </ul>
